Analysis of Coal.

AUDIT OFFICE, OTTAWA, September 17, 1901.

SIR,—I have passed an Application No. 140 for \$3,740.31 in favour of John Heney & Son, on account of coal delivered for Ottawa Public Buildings.

The contract and specification contain the provision that quality must be equal to sample. Please let me know whether steps are taken, by chemical analysis or otherwise, to guard against a supply of inferior coal.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, January 25, 1902.

SIR,—Let me call your attention to my letter of September 17, 1901, asking for a description of any analytical tests which may have been made of the coal supplied to Ottawa Public Buildings.

We do not seem to have received an answer.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

Clinton Public Building : Certificate for Site.

AUDIT OFFICE, OTTAWA, September 13, 1901.

SIR,—Let me acknowledge receipt of an application No. 120, from your department for \$2,500, in favour of the executors of the late Ann Moore, being purchase-price of site for Clinton Public Building.

The only document attached is an extract from Mr. L. F. Taylor's report, as follows :—' Without a doubt the most suitable site for the proposed building is Wiltsie's, marked 'A' on plan. It is situated at the junction of Victoria and King streets, and I would recommend that it be the one selected. I consider that \$2,200 would be a fair price, although the owners might not be inclined to take less than \$2,500 for it, which would be a reasonable figure.'

I do not understand the distinction between a 'fair price' and a 'reasonable price.' Please ask Mr. Taylor to explain. Under section 33 of the Audit Act we can pay only a 'fair and just price.'

I should like to see the full correspondence, and to have some information as to the dimensions of the lot.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

PUBLIC WORKS, DEPT. OTTAWA, December 12, 1901.

SIR,—With reference to your letter of September 13 last, on the subject of our application No. 120, for \$2,500, in favour of the executors of the late Anne Moore, being the purchase-price of the site for the Clinton public building, and in which you

SESSIONAL PAPER No. 1

ask that Mr. Taylor explain the distinction between 'fair price' and 'reasonable price,' I am directed to state that Mr. Taylor has been asked to give the explanation you require, and the following is what Mr. Taylor says in the matter :—

'I think the owners of the property should be offered \$2,200, which would be a 'fair price, fair used in the sense of fairly good, but if the owners stand out for \$2,500, 'the government will be getting the property at a price which is fair and just.'

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

PUBLIC WORKS DEPT., OTTAWA, December 17, 1901.

SIR,—In reference to the letter of the Auditor General of September 13, I beg to say that when I examined the property at Clinton, intended for a site for a public building, I was under the impression that if the department could get the property for \$2,200 it would be getting it at a fair price, meaning that the government would be making a good transaction in obtaining that property at that figure. I observed further, however, that if the owner was not inclined to dispose of the site in question for less than \$2,500, then I was still of opinion that the department would not be paying too great a price for a property of that kind, which I thought worth that sum, if insisted upon.

I am, sir, your obedient servant,

The Secretary, Dept. Public Works.

L. FENNINGS TAYLOR.

Collingwood: Contract Let without Public Tender.

AUDIT OFFICE, OTTAWA, July 27, 1901.

SIR,—Let me acknowledge receipt of Application No. 40 for \$20,690 in favour of C. S. Boone, for dredging in Collingwood harbour.

I have seen in your department the Order in Council under which this work was let, and would like to have a copy of it.

There does not appear, however, to be an explicit waiver of the general Order which prescribes advertising for all works in excess of \$5,000. Please have this omission rectified.

In the absence of a public call for tenders, it will be necessary to have the price of \$34,000 certified as 'fair and just.' Also please mention the approximate number of yards to be excavated under the contract.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, Aug. 8, 1901.

SIR,—In reply to your letter of the 27th ultimo, referring to our application No. 40 for \$20,690 in favour of Mr. C. S. Boone, for dredging in Collingwood harbour, I have the honour to inform you that a report to Council has been prepared to waive the Order in Council of March, 1880, which prescribes advertising for all works in excess of \$5,000, and to state that on future estimates the certificate 'fair and just,' will appear, and also the approximate number of yards to be excavated under the contract, as required by you.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secy.*

Port Elgin : Extras not Ordered in Writing.

AUDIT OFFICE, OTTAWA, January 10, 1901.

SIR,—Let me acknowledge receipt, from your department, of Application No. 257 for \$900 in favour of John Burns on account of final estimate for Port Elgin.

This estimate contains two items of extras, as follows :—

Placing corner braces on cribs, 72 at \$1.50..	\$ 108 00
Placing posts in outer crib, 2 at \$4..	8 00

Please send me the documents described in section 5 of the contract form, namely, the engineer's order for these services, fixing the price before the work was done.

I am, sir, your obedient servant,

HON. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, January 15, 1901.

DEAR MR. McDUGALL,—Your letter of January 10 with reference to the final estimate for Port Elgin has come to hand. The small extras that have been carried out were ordered by the resident engineer, Mr. Gray, who, being on the spot, has thought proper to order these. I have no doubt he has given written instructions. We have communicated with him with a view to complying to your wishes. You will understand it is in the nature of things that extras of that kind may appear in nearly every work.

Sincerely yours,

The Auditor General.

J. ISRAEL TARTE.

PUBLIC WORKS DEPT., OTTAWA, January 29, 1901.

SIR,—Adverting to your letter of the 10th instant, acknowledging the receipt of our Application No. 257 for \$900 in favour of Mr. John Burns on account of final estimate for Port Elgin, Ont., stating that this estimate contains two items of extras, and asking to be supplied with the documents described in section 5 of the contract-form, namely, the engineer's order for these services, fixing the price before the work was done. I have the honour to inform you that our acting chief engineer to whom the matter was referred, reports as follows :—

‘Mr. Gray informs me that the orders for extras were given, and their prices agreed upon verbally, as the extra expenditure was small.

‘I have issued a circular-letter to the resident engineers calling their attention to the provisions of clause 5 of the contract forms.’

I am, sir, your obedient servant,

The Auditor General.

JOS. R. ROY, *Acting Sec.*

Payments to Contractor and Sub-contractors for Same Work.

AUDIT OFFICE, OTTAWA, Dec. 27, 1901.

SIR,—Let me call your attention to cheque 84,712 of June 7, 1901, in favour of Albert Bouchard, François Bouchard, Emile Bouchard and Edouard Bouchard,

SESSIONAL PAPER No. 1

for \$3,036, for transportation of poles for telegraph line between Romaine and Chateau Bay.

From a letter by the deputy minister to the accountant, dated January 10, 1901, it appears that the same service was also paid for under contract with Mr. L. P. de Courval—the other \$3,036 being included in the sum of \$5,436 shown at the foot of page V—277 of my report of 1899-1900.

Please let me have a more complete description of the circumstances under which the double payment was made. What officer was responsible? Was the Justice Department consulted as to the government's liability for the second payment? What steps have been taken to recover the over-payment from Mr. de Courval?

I notice in Mr. Gobeil's letter the following paragraph: 'However, those parties (the Bouchards) have not been paid; and so far as I can find out, either Mr. de Courval has been paid in full, or else there are no funds available out of our appropriation to make the payment.' What does this mean? Mr. de Courval was paid in full; and there was no balance of appropriation, whether he was or not.

I am, sir, your obedient servant,

Hon. J. Israël Tarte.

J. L. McDougall, A.G.

PUBLIC WORKS DEPT., OTTAWA, January 10, 1901.

Dear Mr. Kingston,—In the course of the spring of 1900, by order of the minister, I made an agreement with the Captains Bouchard, of Quebec, for the transportation on the Labrador coast of certain poles which had been purchased for the North Shore telegraph line, in the St. Lawrence, at the rate of \$1 per pole. Those poles were duly transported by those gentlemen. Subsequently, a contract was entered into with Mr. de Courval for the transportation of the balance of the poles, and it was understood with Mr. de Courval that he would take to his charge the payment due to the Captains Bouchard, and I believe Mr. Keeley made a note to that effect. However, those parties have not been paid, and so far as I can find out, either Mr. de Courval has been paid in full, or else there are no funds available out of our appropriation to make the payment. Be it as it may, however, it is desirable that you should at once ascertain from Mr. Keeley what is the amount due to the Captains Bouchard, and write a certificate of acknowledgment of indebtedness by the department, that I can send to those parties, and of which they can make use at the bank if they so desire. I will be obliged if all expedition is made in the settlement of this matter.

Yours very truly,

A. G. KINGSTON, Esq., Accountant.

A. GOBEIL, D.M.

PUBLIC WORKS DEPT., OTTAWA, January 20, 1902.

DEAR MR. McDUGALL,—I am sorry I could not give my attention sooner to your letter of December 27, in reference to cheque No. 84,712, dated June 7, 1901. As soon as my deputy minister is back, I will take the matter up. In the meantime, I will try to get some explanation from the accountant.

Yours truly,

The Auditor General.

J. ISRAEL TARTE.

Yukon Vouchers to be Examined by Accountant in June, 1901.

AUDIT OFFICE, OTTAWA, February 1, 1901.

DEAR MR. TARTE,—Let me point out that the delays and inaccuracies by your Accountant's Branch in furnishing necessary statements and vouchers in connection with the accounts have been the cause of much inconvenience and loss of time in the preparation of the report which is now about to be submitted to Parliament, and have been hurtful in other respects.

As illustrations I may mention :

1st. That most of the vouchers of Mr. Charleson's expenditure in the Yukon made between March and October, 1899, only reached this office about December 20 1900, and then, after drawing your special attention to the delay. These vouchers, as we now learn on good authority, were in your department before Mr. Charlson left for the Yukon in the early spring of 1900. As it was, these vouchers never were examined in the Accountant's Branch as is required under section 42 of the Audit Act, and as they evidently should have been even if there was no Audit Act.

2nd. We have not received any departmental cheques of the current fiscal year.

3rd. The statements of deposits with deposit receipts have come to us irregularly, thus postponing the credit to the Receiver-General.

I desire to have a clear understanding with your department as to the respective times when the various statements and vouchers are to be furnished this office. I need not say that regularity in this respect will be as conducive to satisfaction in your department as in this office.

There is no intention to indicate want of zeal or intelligence on the part of any particular employee in the Public Works Department in what I feel called upon to say. Whether the unsatisfactory result comes from want of a sufficient number of assistants to the accountant or from their incapacity, must of course be determined inside of the department. I have seen much of the accountant himself in business relations and am sure that he is both earnest and capable.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, February 7, 1901.

SIR,—I have the honour to acknowledge the receipt of your letter, dated the 1st instant, calling attention to delays in furnishing statements and vouchers in connection with the accounts of this department.

I am, sir, your obedient servant,

The Auditor General.

JOS. R. ROY, *Acting Sec.*

AUDIT OFFICE, OTTAWA, March 12, 1901.

DEAR MR. TARTE,—I have a better opportunity now to go into the examination of the Charleson and Taché accounts than I will have in the near future. I wish that you would instruct Mr. Kingston to do at once what is required in the department in connection with accounts, and then forward them to this office.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDUGALL, A.G.

SESSIONAL PAPER No. 1

PUBLIC WORKS DEPT., March 14, 1901.

MY DEAR MR. McDUGALL,—Instruction will be given to Mr. Kingston to comply with your request, as per your letter of March 12.

I am, sir, your obedient servant,

The Auditor General.

J. ISRAEL TARTE.

Yukon Vouchers to be Audited by Accountant in June, 1901.

PUBLIC WORKS DEPT., May 30, 1901.

SIR,—The accountant of the department has sent over to your department this morning, as promised, the vouchers for the expenditure on the Quesnelle-Atlin telegraph line, from its inception to the month of November last (1900). As I told you yesterday, I have arranged with the accountant of the department, Mr. Kingston, that he shall at once, and personally, undertake the classification of the vouchers in our hands for the Bennett-Dawson line, and prosecute the work without delay, in order that they may be placed in your hands as quickly as possible. This will permit of Mr. Hardy leaving for Vancouver to join Mr. Charleson, and also, I hope, of your issuing at once the credit of \$11,000 applied for yesterday by the department on behalf of Messrs. Charleson and Hardy.

Mr. Charleson has wired me yesterday that he feared difficulties on account of delay in paying the men, and part of the credit asked for is to be applied for that purpose.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.

Mr. Hardy wanted in Ottawa until Examination is Completed.

AUDIT OFFICE, OTTAWA, April 10, 1901.

DEAR MR. TARTE,—I have had some conversation with Mr. Kingston and Mr. Hardy about the Charleson accounts. I think it is important that Mr. Hardy should not leave Ottawa until there is a full adjustment of these accounts. I am glad to know that he is making considerable progress with them.

Then, whatever has been done in connection with the stores account, Mr. Gilchen, or whoever is store-keeper for the future, should take at once a full inventory of the stores on hand and be able to show at the end of the season where they, as well as any additions which have been made to the stores, have gone.

I should like to have a line from you indicating that you agree with me in these views.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDUGALL, A.G.

AUDIT OFFICE, OTTAWA, May 25, 1901.

SIR,—I have been informed this morning by Mr. Hardy of your department that, notwithstanding your intention that he should not leave for the coast until after an

adjustment of the old Charleson accounts, your minister has instructed him to leave on Monday next, the accounts not having been adjusted. I presume that there is some misunderstanding by him.

I am, sir, your obedient servant,

The Deputy Minister, Public Works.

J. L. McDOUGALL, A.G.

Conditions of Yukon Letter of Credit.

PUBLIC WORKS DEPT., OTTAWA, May 28, 1901.

DEAR MR. McDOUGALL,—I require a credit of eleven thousand dollars (\$11,000) to be issued to Messrs. Charleson & Hardy to make immediate and urgent payments, mainly wages.

I have decided to send an able and experienced accountant and business man to have a thorough inspection of the books, stores, &c., the whole situation, so as to control and supplement the information that we have now in our possession. Indeed, I would be glad if you would send one of your men to act jointly with the man appointed by my department.

Believe me, truly yours,

The Auditor General.

J. ISRAEL TARTE.

AUDIT OFFICE, OTTAWA, June 3, 1901.

SIR,—Let me acknowledge receipt of your letter suggesting that one of the Audit officials accompany the accountant whom you propose sending to the Yukon.

I regret being unable at this season to detach any one from the preparation of the annual report.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,

J. L. McDOUGALL, A.G.

Minister of Public Works.

Conditions of Yukon Letter-of-Credit.

AUDIT OFFICE, OTTAWA, May 30, 1901.

SIR,—With reference to the Yukon telegraph expenditure, I wish that you would draw the attention of Messrs. Charleson & Hardy to the advisability of keeping in mind the following directions, as well as any other which may occur to yourself :—

1. The larger accounts, which can be, without inconvenience to the creditors, paid by departmental cheque, should be so paid.

2. With reference to other accounts, those which can be paid by letter-of-credit cheque should be paid in that way.

3. With reference to cash disbursements, they should be confined mainly to petty contingencies, travelling expenses and men's wages.

Regarding both travelling expenses and men's wages, the accounts should be made up at the end of each trip, the necessary dates and statements, with accounts and vouchers furnished, and the unexpended balances refunded.

4. As required by the 33rd section of the Audit Act, evidence should be given that the goods charged have been received, and that the prices charged are fair and just.

SESSIONAL PAPER No. 1

5. At the end of each month, a list of cheques drawn against the credit should be made out and forwarded to the Department of Public Works to enable the department to repay the bank.

6. At the end of the month there should also be furnished all vouchers which have been received during the month, numbered to show their connection with the sums for which they are vouchers.

7. There should also be an explanation showing the reason for the absence of vouchers for any payment during the season which has not been previously accounted for.

I am, sir, your obedient servant,

The Deputy Minister, Public Works.

J. L. McDOUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, June 13, 1901.

SIR,—I have the honour to acknowledge the receipt of your letter dated the 30th ultimo, referring to the Yukon telegraph expenditure, and stating that you wish that we draw the attention of Messrs. Charleson & Hardy to the advisability of keeping in mind the directions therein mentioned, as well as any other which may occur to the deputy minister.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

Cheques for year 1901-2 drawn before July 1, 1901.

AUDIT OFFICE, OTTAWA, August 20, 1901.

SIR,—Let me acknowledge receipt, from your department, of application No. 67 in favour of the Canadian Bank of Commerce in repayment of cheques amounting to \$5,615.16 drawn by Messrs. Charleson & Hardy between June 7 and 21, 1901.

The application is marked as chargeable to the vote in 1901-2 for 'Telegraph Line between Port Simpson and Hazelton.'

Please describe the circumstances under which Messrs. Charleson & Hardy drew cheques in June, to be charged to the coming fiscal year, which was not to begin until July 1.

I notice that some of the services are 'wages from March to June.'

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

FREDERICK HAYTER, *for A.G.*

NOTE.—No answer has been received to this letter.—Jan. 24, 1902, J. L. McD.

Large Balances due to Messrs. Rochester and Trodden.

AUDIT OFFICE, OTTAWA, July 2, 1901.

SIR,—In a memorandum by Mr. Kingston concerning Yukon expenditure, I notice two sums shown as still due, namely, \$11,061.83 to Jas. Trodden, and \$22,467.13 to J. Y. Rochester.

As these are government officers on limited salaries, it does not appear probable that they advanced their own money. If the department made any guarantees, I should like to get all particulars, including cheques and statements of cheques. It is quite

understood that I have no power to recognize in any way the system of drawing money through a bank without the existence of an appropriation and the usual letter of credit, signed by the Finance Department and this office. It, however, seems proper that I should assist in every way a department which may have made an arrangement which I was unable to authorize.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept.

J. L. McDOUGALL, *A.G.*

AUDIT OFFICE, OTTAWA, January 25, 1902.

SIR,—Let me call your attention to my letter of July 2, 1901, asking for an explanation of the banking transactions by which Messrs Rochester & Trodden were enabled to become government creditors to the extent of \$22,467.13, and \$11,061.83, respectively.

I do not find that any answer has been received from you.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,

J. L. McDOUGALL, *A.G.*

Minister of Public Works.

Defective Certificates on Yukon Vouchers.

AUDIT OFFICE, OTTAWA, July 3, 1901.

SIR,—I have received from the Public Works Department an application to pay to the Yukon local revenue account the sum of \$13,759.06 on account of a bridge over the Klondike river.

The vouchers in support of this application have been collated, and are found to be deficient with respect to certificates.

Section 33 of the Audit Act provides that, in addition to any other certificates, all vouchers shall be certified 'work done,' or 'materials received,' as the case may be, and 'prices according to contract,' or 'prices fair and just,' the latter being for use when the contract has not been made under advertised tender.

The two bills from the Dominion Bridge Company are marked 'materials received'; the other certificates are all missing. Freight can be certified 'work done,' and 'price fair and just.'

The certificates should in all cases be made by officers having personal knowledge of the facts.

I am, sir, your obedient servant,

Mr. Commissioner Ross, Dawson, Y.T.

J. L. McDOUGALL, *A.G.*

DAWSON, Y.T., July 17, 1901.

SIR,—I have your letter of the 3rd July respecting certain accounts which have been forwarded to you by the Department of Public Works, looking towards payment to the Yukon local revenue account of moneys expended by the Yukon Council in the building of a bridge over the Klondike river.

You point out that section 33 of the Audit Act has not been complied with, in that vouchers have not been properly certified to.

SESSIONAL PAPER No. 1

As to the freight bills, there was no reason why they should not have been certified as 'prices fair and just,' for, although the freight rates may be very high here, still there was no opportunity to bring the bridge in except through the one transportation company.

As for the account for the bridge delivered at Vancouver, all I can say is that from my own experience in purchasing many structures of this kind in the Territories, I am led to believe that the cost of this bridge at Vancouver does not seem to be out of the way.

I do not understand why Mr. Ogilvie, when the accounts were sent down, did not himself certify that the prices were fair and just. I can assure you that any accounts in future going down from this department will bear the proper certificates in every case, as I quite understand that you must have these certificates under the Audit Act before the accounts can be paid.

I am, sir, your obedient servant,

The Auditor General.

Re Telegraph Revenue, Bennett-Dawson Line.

AUDIT OFFICE, OTTAWA, NOV. 26, 1901.

SIR,—I have to call your attention to the delay in depositing the revenue of the Bennett-Dawson line remaining after the payment of the maintenance accounts.

In acquittance of the July return a deposit was made August 11 of \$1,031.50, and another on October 1 of \$2,275.79.

In acquittance of the October return the following deposits were made : December 22 of \$158.29; January 5, \$1,554.78, and January 7, \$472.17.

In acquittance of the June 1901, return the following deposits were made: July 11, \$167.79; July 24, \$3,695.60, and August 15, part of deposit of \$3,000, \$1,249.64.

I cannot conceive of any explanation for some of the delays in making the deposits of the revenue, particularly of those for July and October. The delays may be either with those who use the line or with the collecting officers. I confess that I feel very anxious to get an explanation of these constantly recurring delays.

The total revenue of June appertaining to the government was \$8,668.37. About 65 per cent of this was collected at Dawson, 15 per cent at White Horse, and 13 per cent at Bennett. Is there any reason why the operators at these offices cannot comply with the Treasury regulations and deposit every day when the receipts amount to \$25 ?

I understand that you have instructed the superintendent not to pay maintenance accounts out of the receipts, but in future to deposit his gross receipts. This will enable the superintendent to more strictly comply with the regulations, which he should be required to do.

It would simplify the accounts if your officers in the Yukon and the Mounted Police officials would pay their telegraph accounts instead of having them percolate through the department.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, NOV. 26, 1901.

SIR,—I am without any reply to my letter of September 17 last, in reference to the delay in forwarding the returns of the Bennett-Dawson line.

In the adjustment of the returns up to June 30 last, the following items, claimed by the superintendent, have not come to account :—

Return of June, 1900—Interior Dept., telegraph account...	\$10 35
“ January, 1901—J. C. Taché, 24 75
“ February, 1901—J. C. Taché, 13 55
“ March, 1901—J. C. Taché, 8 80
“ May, 1901—J. C. Taché, 63 42

And the following items have been deducted from the maintenance accounts claimed :—

Return of July, 1900—Advance to Supt. Crean..	350 00
“ May, 1901—	“ Champagne.....	40 00

SESSIONAL PAPER No. 1

The following deposits that have come to account are not claimed in the superintendent's returns :—

May 15, 1900—Part deposit of \$4,799.43 at Dawson.....	\$ 0 43
January 22, 1901—Part deposit of \$1,816.92 at Dawson..	16 70
April 22, 1901—Deposit at Dawson.....	(a) 50 00
July 12, 1901—Part deposit of \$278.36 at Ottawa.....	11 35
August 7, 1901—Deposit at Ottawa	123 88
Also entry warrant as per your application of May 7, 1901.....	(a) 1,313 23

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

(a) Mr. Crean, Superintendent, states that these items were credited in error to Revenue.

AUDIT OFFICE, OTTAWA, December 17, 1901.

SIR,—I have written you at the following dates :—October 25, 1900, March 14, 1901, April 15, 1901, September 17, 1901, November 26, 1901 (two letters), in reference and that the matter had been brought to the attention of the Honourable the Minister. Dawson Line. The only reply I received is your letter of April 20, 1901, stating that you had telegraphed the superintendent to send in his returns without further delay ; and that the matter had been brought to the attention of the Honourable the Minister.

I received yesterday from Mr. Keeley, summaries of the returns for July and August last, and I regret to say they are not at all satisfactory. The gross revenue of July was over \$9,000. Of this amount over \$5,500 accrued at Dawson, \$1,400 at Bennett, and \$1,260 at White Horse. If the regulations of the Treasury Board had been carried out the collections from day to day would have been deposited as collected, and the balance for the month, shortly after its close. The deposits made were as follows : August 7th, \$1,750.36 ; 13th, \$195.44 ; 21st, \$2,245.79 ; September 5th, \$2,000, and September 23rd, \$872.96. The deposits for the August revenue were equally late.

By this practice there is nothing to prevent the revenue collected during any one month from being used in making good the revenue of the previous month.

I submit that immediate action should be taken with the view of having this revenue deposited more promptly.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. PUBLIC WORKS, OTTAWA, December 19, 1901.

MY DEAR MR. McDOUGALL,—The secretary of my department has shown me your letter of December 17. We have, over and over again, given positive instructions to the superintendent of our telegraph system, in reference to the returns of the revenue. Mr. Crean is on his way to Ottawa. He will be here within a week, I hope. I need not tell you that I will make it a point to have the case thoroughly inquired into. I am not in a position to say more to-day—except, perhaps, that the conditions in that part of the country are so different from others, that, I suppose, there must be reasons for the delays that have taken place. However, we will know all about it without great additional delay.

Truly yours,

J. ISRAEL TARTE.

Re Arrears Due for Rent of Building at Windsor, Ont.

AUDIT OFFICE, OTTAWA, April 24, 1901.

SIR,—On the 11th inst., it was stated in the House of Commons by the Minister of Agriculture, in the absence of the Minister of Public Works, that Mr. Aurele Pacaud owed \$210 for the rent of a building at Windsor, Ont.

This is the first intimation of the transaction that has reached this office. I have to ask that, in future information should at once be furnished of any arrangement made by your department from which revenue may be expected to accrue.

Please explain why you did not report this lessee in arrears in reply to my letters of October 6 and November 12 last, asking for all arrears due to your department?

Why was Mr. Pacaud paid \$36.50 for advertisements by your department during 1899-1900, and he in arrears for rent at the same time?

What action has been now taken to recover the amount due?

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, May 21, 1901.

SIR,—Adverting to your letter of the 24th ultimo, relative to the amount due by Mr. Aurèle Pacaud for the rent of a building at Windsor, Ont., I have the honour to say that our Collector of Revenue is making a strong attempt to collect the arrears due by Mr. Pacaud.

I am, sir, your obedient servant,

The Auditor General.

JOS. R. ROY, *Acting Sec.*

Re Wharfs and Piers.

AUDIT OFFICE, OTTAWA, November 12, 1901.

SIR,—I have to call your attention to the correspondence of March, 1900, in reference to the transfer of certain wharfs to the Department of Marine and Fisheries (See Audit Report, 1899-1900, pages P—178-179-180 and 181).

Have any of these wharfs been since transferred? Has your department collected wharfage at any of them, or is it the practice to allow the public free use of a wharf till transferred to Department of Marine and Fisheries?

I am, sir, your obedient servant,

The Deputy Minister, Public Works.

J. L. McDOUGALL, A.G.

AUDITOR GENERAL'S REPORT

Port Colborne Breakwater: Extra Item of \$100,000.

AUDIT OFFICE, OTTAWA, October 15, 1902.

SIR,—Let me acknowledge receipt, from your department, of Application No. 135 for \$46,750 in favour of Hogan & Macdonell, being their Estimate No. 10 to September 30, 1902.

There is a new bill of extras, amounting to \$51,500, being part of a 'supplementary contract' of \$100,000 for 60,000 cubic yards of additional crib-work.

Please inform me whether this additional crib-work was let by public tender, or whether for any reason it is allowable under section 13 of the Public Works Act.

The estimate quotes an Order-in-Council of May 24, 1902, which Mr. McGee does not appear to have sent to me.

I am, sir, your obedient servant,

Hon. J. Israel Tarte, Minister of Public Works.

J. L. McDougall, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Oct. 17, 1902.

DEAR MR. McDUGALL,—I beg to acknowledge the receipt of your letter of the 15th instant, with reference to our application No. 135 for \$46,750, in favour of Hogan & Macdonell, being estimate No. 10 to September 30, 1902, on the Port Colborne works.

You ask first: 'Please inform me whether this additional crib-work was let by public tender or whether by any reason it is allowable under section 13 of the Public Works Act.' I am directed to inform you that this work was eminently an urgent one, and came within the exception provided for in section 13 of the Public Works Act. In support of my contention, I beg leave to inclose you, herewith, a copy of the report of the Chief Engineer to the Hon. the Minister of Public Works, bearing on this subject, and giving detailed information bearing precisely on this matter of emergency.

You also ask for copy of the Order-in-Council of May 24, 1902, and I am informed that the Clerk of the Privy Council has now complied with your wishes in this respect.

Hoping this will be found satisfactory, and that you now may find your way clear to issuing a cheque in favour of Hogan & Macdonell for the above mentioned amount.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

DEPT. OF PUBLIC WORKS, OTTAWA, May 22, 1902.

SIR,—In further reference to my report of December 4 last, *re* work now being built by Messrs. Hogan & Macdonell at Port Colborne, I have the honour to inform you that after going carefully into the matter with Mr. Resident Engineer Louis Coste, we have come to the conclusion that the only manner in which the portion of 1,200 feet already built can be made secure is by increasing its present width of 25 feet to 50 feet.

Moreover, it will become necessary to increase the width of the 1,200 foot section immediately adjoining the one above referred to from 25 to 50 feet, otherwise it will more than probably undergo the same damage sustained by the portion already built.

In the estimates for next fiscal year is included a sum of \$100,000, which you have stated to the House was for the purpose of widening the existing 1,200 feet to 50 feet, no reference having been made by you as to the necessity of widening the section immediately adjoining. When this estimate of \$100,000 was prepared it was the intention to place a concrete wall 9 feet high along the inner face of the widening. But if this wall is dispensed with and crib-work substituted, as per sketch hereto annexed, it becomes possible to widen the 50 feet the full length of 2,400 feet for the amount appropriated, providing the quantity of rock to be excavated under the contract in the

harbour be reduced by 25,000 cubic yards. The contractors have agreed to this decrease in the quantity of rock excavation, which at the rate of \$2 per cubic yard, will place an additional sum of \$50,000 at your disposal for the proposed widening. I may add that the rock excavation which it is proposed to dispense with, is not required at present, and may not be required for some time to come, while it is imperative that the break-water be widened in order to prevent its destruction.

The estimated cost of the work, as per sketch hereto annexed, is placed at \$150,000, as follows:—

48,000 c. yds. of crib-work, fully ballasted, at \$2.70 per c. yd.	\$129,600
12,000 c. yds. stone filling, at \$1.50 per c. yd.	18,000
Contingencies, &c.	2,400
	<hr/>
Total.	\$150,000
Less 25,000 c. yds. of rock excavation, at \$2 per c. yd.	50,000
	<hr/>
	\$100,000

This estimate is based upon prices which have been agreed upon with the contractors, and which I consider fair and reasonable. In fact the price of \$2.70 per cubic yard for crib-work is lower by 30 cents per cubic yard than the schedule price for such work (\$3 per cubic yard), mentioned in Messrs. Hogan & Macdonell's contract.

I beg to call your attention to the fact that it is absolutely necessary that the widening be completed before October 30 next, as the 1,200 foot section of the work already built has sustained such damage as to render its existence doubtful if it should be again subjected to such heavy storms as those to which the damage is due, and as the next 1,200 foot section would, if not widened, be subject to the same damage as the first.

Under the circumstances I fail to see how tenders could be called for the work, as the time which would be thus taken up, and the time required for the procuring of the necessary timber, should other contractors than Messrs. Hogan & Macdonell secure the work, would be so great as to render the completion of the work by the time required absolutely impossible.

Furthermore, should the contract be let to other parties than the present contractors, the department would become liable for any delays caused by one contractor to the other.

In conclusion, I have therefore the honour to recommend that the work be given to the present contractors, Messrs. Hogan & Macdonell, for the net amount of \$100,000, for the following reasons:—

The proposed widening is absolutely required to ensure the safety of the work and prevent it from being destroyed.

It must be completed on or before October 30 next, when the stormy season sets in.

The delays incidental upon calling for tenders, and the procuring of materials by others than the present contractors (who have them on hand) would preclude the possibility of its completion by the time required.

The work cannot be done for the amounts already appropriated by Parliament unless it is given to the present contractors.

The prices agreed upon with the present contractors are fair and reasonable, and lower than the schedule prices of their contract.

The department will have a most substantial work, double the specified width for 2,400 feet of its length, for a net amount of \$100,000 over and above the contract price of \$395,000.

I am, sir, your obedient servant,

The Minister of Public Works. EUGENE D. LAFLEUR, *Acting Chief Engineer.*

SESSIONAL PAPER No. 1

Boilers for Dredge 'Fielding': Contract not Advertised.

AUDIT OFFICE, OTTAWA, October 18, 1902.

SIR,—Let me acknowledge receipt to-day of your application No. 148 for \$17,000, in favour of the Laurie Engine Co., of Montreal, for two marine boilers for the dredge *W. S. Fielding*, as by contract of April 11, 1902.

Please inform me whether this contract was let by public tender.

I do not find that a copy of the specification and contract has been supplied to this office.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Oct. 29, 1902.

SIR,—With reference to our application No. 148, for \$17,000, in favour of the Laurie Engine Company, of Montreal, for two marine boilers for the dredge *W. S. Fielding*, I beg to acknowledge the receipt of your letter of October 18, requesting to be informed whether this contract was let by public tenders, and asking that copy of the specification and contract be supplied to your office. In reply, I may state that the dredge *W. S. Fielding* is now being constructed at the government workshops at Sorel, by the officers and servants of the Department of Public Works, and that, therefore, this work comes under the second exception provided for in section 13 of the Public Works Act, which provides that the calling of public tenders can be dispensed with wherever works 'can be more expeditiously and economically executed by the officers and servants of the department.'

This application No. 148, on behalf of the Laurie Engine Company, is for an expenditure incurred for the purchase of materials bought for the construction of the dredge in question—a work being carried out by day's labour by the officers of this department.

Inclosed, as desired, copy of the contract and specification.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

AUDIT OFFICE, OTTAWA, Nov. 5, 1902.

SIR,—The specification and contract for the two boilers furnished by the Laurie Engine Company have just come to hand.

I notice by section 18 that no payment is to be made 'until the department has received a certificate from the Government (Boiler) Inspector to the effect that the work has been completed according to the plan and specification and requirements of the Marine Law.'

Please let me see the Government Boiler Inspector's certificate.

I am not yet prepared to deal with the question raised in your 132897 of October 29 regarding the applicability of the exemption under section 13 of the Public Works Act to this claim, but it appeared well that no time should be lost in settling this point.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Nov. 26, 1902.

SIR,—I beg to transmit to you herewith copy of a letter of November 24, received by the Deputy Minister of Public Works from the Department of Justice, together with copy of an Order-in-Council of the 19th of the same month, both documents bearing upon the matter of the payment of an account for two marine boilers built by the

Laurie Engine Company, contract price being \$17,000, in connection with the dredge *W. S. Fielding*. You will note that the Department of Justice gives it as their opinion that section 13 of the Public Works Act has no bearing upon the present case, and this department would feel obliged for an early reply to this communication, as we are being pressed by the company for an early settlement of their claim.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

DEPT. OF JUSTICE, OTTAWA, Nov. 24, 1902.

SIR,—Referring to your letter of 21st instant with regard to the claim of the Laurie Engine Company for contract price of boilers constructed for the dredge *W. S. Fielding*, it appears that the dredge was being built as a public work by the officers and servants of the Public Works Department, and, therefore, the work is an exception from the requirements of section 13 of the Public Works Act, which provides that the minister shall invite tenders by public advertisement in the execution of all works. Inasmuch, therefore, as it was not necessary to invite tenders for the building of the dredge, and as the contract with the Laurie Engine Company does not call for any work upon the dredge, but merely for making and delivery of the boilers according to specification, I am to state that in the opinion of the minister section 13, upon its true construction, does not require that the department should call for tenders for the boilers. It is certain that in the execution of almost all public works which are executed by the officers and servants of the department, materials and fittings must be used which have to be purchased therefor, and any interpretation of section 13 which would require public advertisement and tenders for all these purchases would no doubt be extremely inconvenient. The price of the boiler in the present case is no doubt a considerable item, but the minister is unable to decide that, on that account, it should be treated differently from materials, fittings, &c., required, and which have to be obtained by purchase for the execution of the work.

I am, sir, your obedient servant,

The Deputy Minister of Public Works.

E. L. NEWCOMBE, *D.M.J.*

AUDIT OFFICE, OTTAWA, Dec. 1, 1902.

SIR,—I am passing to-day your application No. 148 for \$17,000, in favour of the Laurie Engine Company, of Montreal, to pay for two marine boilers for the dredge *W. S. Fielding*, under construction at Sorel.

I do not agree with the opinion of the Justice Department, which appears to mean that the building of the dredge by the Public Works employees (instead of by outside contractors) enables all the parts thereof to be purchased without tender. If any material would need to be advertised as a single purchase, the same requirement holds, in my opinion, when it forms part of a larger construction. This also was the opinion expressed to me by Mr. Aylesworth. The boilers would, I think, be considered a 'work' if required separately, as a result of the fact that they are not articles which would ordinarily be found in stock, but would require to be specially constructed to fill this order.

In view, however, of the agreement between the opinions given in the case of the Polson dredge by the Department of Justice and by Mr. Aylesworth, that a spending department, while exceeding its authority and acting illegally, can yet pledge the government's responsibility to the public creditor all the same, when the latter is in good faith: I find myself obliged to pass the present application, even after classifying it as a 'work' which should have been advertised.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

FRED. GELINAS, *Secretary*.

SESSIONAL PAPER No. 1

Propelling-Machinery for Dredge 'Fielding': Contract not Advertised.

AUDIT OFFICE, OTTAWA, Dec. 13, 1902.

SIR,—Let me acknowledge receipt of your application No. 230 for \$15,520 in favour of the Polson Iron Works, being estimate No. 1 on their contract for propelling-machinery for dredge *W. S. Fielding*.

The specification is endorsed 'The contractors were the lowest tenderers (by private circular).'

Please give me a list of the persons to whom circulars were sent, and a complete list of the Canadian manufactories which produce such machinery.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDougall, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Dec. 23, 1902.

SIR,—In reply to your letter of December 13, concerning our application No. 15,520 in favour of the Polson Iron Works, I have to send herewith copy of an Order-in-Council passed on April 15 last containing the information which you seek in your letter.

The two firms mentioned in the Order-in-Council being among the most prominent of the manufacturers of the machinery required, it was considered that sufficient competition would be secured, without at the same time running the risk of having the important works required falling into the hands of persons less qualified for their proper execution.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.

Order-in-Council, April 15, 1902.

On a memorandum dated February 28, 1902, from the Minister of Public Works, stating that the sea-going hopper scow which is being built in the government shipyard at Sorel will be ready shortly to receive the engines and pump with which she is to be fitted.

That with a view to avoiding delays in the supply of these engines and to ensure timely delivery, tenders were asked from two leading Canadian firms, viz: The Polson Iron Works, of Toronto, and the Laurie Engine Company, of Montreal, these founders offering the best guarantee for good and quick work.

That the lower tender received is from The Polson Iron Works, who have duly deposited the sum of \$3,000 as security for the fulfilment of the contract.

The minister therefore recommends that authority be given to enter into contract with The Polson Iron Works of Toronto for the construction of the two twin-screw propelling engines and one centrifugal pump—in accordance with specifications prepared by the Department of Public Works—for the sum of \$23,000; and that the Order-in-Council of March 23, 1880, directing that public tenders be invited for all works involving an expenditure over \$5,000, be waived in this case, it being in the public interest so to do.

The Committee submit the same for His Excellency's approval.

JOHN J. MCGEE, C.P.C.

AUDIT OFFICE, OTTAWA, Jan. 12, 1903.

SIR,—In further discussion of the claim of the Polson Iron Works for \$15,520, the amount of their first progress estimate on propelling-machinery for the dredge *W. S. Fielding*:

As a result of recent legal opinions in similar instances, that the creditor was entitled to his pay even though the department overstepped its authority, I am passing the application on the Inspector's certificate that the price is 'fair and just.'

However, your reason for inviting only two firms to tender, namely, to secure sufficient competition 'without at the same time running the risk of having the important works fall into the hands of persons less qualified for their proper execution,' would not (I think) be a safe rule for general working.

By section 13 of the Public Works Act, tenders should have been invited by public advertisement. The method of avoiding the danger which you anticipated is provided by Parliament in section 14: 'In all cases in which it seems to the minister not to be expedient to let such work to the lowest tenderer, he shall report the same and obtain the authority of the Governor-in-Council previously to passing by such lowest tenderer.'

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

Dredge for Columbia River: Contract not Advertised.

AUDIT OFFICE, OTTAWA, Oct. 23, 1902.

SIR,—Let me acknowledge receipt, from your department, of application No. 154 in favour of the Polson Iron Works, of Toronto, for \$4,500, on account of construction of dredge for Columbia river between Arrow lakes.

Please inform me whether the contract for this dredge was let by public tender, and whether the Polson Iron Works made the lowest offer.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, Dec. 4, 1902.

SIR,—I beg to acknowledge the receipt of your letter of the 3rd instant, calling attention to your former communication of October 23, with reference to our application No. 154 in favour of the Polson Iron Works, of Toronto, for \$4,500, on account of the construction of a dredge for the Columbia river. In reply, I am to state that the construction of this dredge was given to the Polson Iron Works on the report of the Acting Chief Engineer that that company was the best equipped in Canada for the performance of this special kind of work.

The necessary authority from Council was obtained by an Order bearing date January 30, 1902, wherein it is stated that it is in the public interest to waive the provisions of the Order-in-Council of March 23, 1880, requiring public tenders for works over \$5,000.

In further connection with this matter I may be permitted to draw your attention to that paragraph of your letter of December 1, 1902, wherein you state that you feel bound, when a contract has been made by a department, whether exceeding its authority or acting illegally, but, however, pledging the government's responsibility to a public creditor, when the latter is in good faith, to make payment. We respectfully submit that this rule should apply in the present case.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

Sec. 13 of Public Works Act requires Advertisement for Tenders.**AUDIT OFFICE, OTTAWA, Dec. 4, 1902.**

SIR,—Let me call your attention to a recent letter from the Department of Justice concerning the Polson dredge, wherein Mr. Newcombe advises that tenders should have been advertised for, under section 13 of the Public Works Act.

I presume that (in view of the opinion of the Department of Justice that tenders should be advertised for in the case of works to be constructed) tenders will be called for in that way before entering into contracts for works hereafter. I shall be glad to know, however, definitely, that such is the intention, so that you will be free from the trouble of answering a letter on the subject from this office with reference to each contract.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, Dec. 5, 1902.

SIR,—I have received your letter of the 4th instant, asking whether it is the intention of the department to advertise, in future, for tenders in the case of works to be constructed by the department under section 13 of the Public Works Act.

This question is now under consideration, and a reply will be sent to you without delay. Meanwhile, this department would desire to be informed as to whether you have decided to pass all the applications made for payments for works executed by this department under the Order-in-Council of March, 1880, when both this department and yourself were under the impression that such Order-in-Council was *intra vires*.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

AUDIT OFFICE, OTTAWA, Dec. 10, 1902.

SIR,—Let me acknowledge receipt yesterday of your 134487 of December 5, asking whether I have decided to pass 'all the applications made for payments for works executed by the Public Works Department under the Order-in-Council of March, 1880.'

I think that all such applications have already been passed, under the opinion given both by the Justice Department and by Mr. Aylesworth, namely: that the public creditor, when acting in good faith, is entitled to payment, whether the department followed the directions of the Public Works Act or not.

The only modification I expected in each case was, that the prices should be certified 'Fair and just' by the proper officer, instead of 'According to contract.' The same certificate will be needed in all similar accounts which are not yet settled.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

Order-in-Council, December 16, 1902.

Public Works.—On a memo. dated Oct. 31, 1902, from the Acting Minister of Public Works, submitting that on January 30, 1902, an Order-in-Council was passed authorizing the award of a contract to the Polson Iron Works, of Toronto, for the sum of \$15,000 for the construction of a $\frac{3}{4}$ -yard dipper dredge for the improvement of the Narrows between Lower and Upper Arrow Lakes, B.C.

The minister states that the recommendation on which the said Order-in-Council was based was made in accordance with the provisions of the Order-in-Council of March 23, 1880, which provides for the calling for public tenders for works of over \$5,000, unless owing to emergency or other cause, it be deemed advisable to take a different action.

That in accordance with the provisions of said Order-in-Council of January 30, 1902, a contract was entered into with the Polson Iron Works under provisions of which payments were to be made upon progress estimates rendered by the engineer as the work would proceed, and that such a progress estimate for the sum of \$4,000 was sent to the Auditor General, who declined to authorize the issue of the necessary cheque in payment thereof on account of the fact that no public tenders were called for the execution of that work.

The minister observes that upon a reference having been made to the Department of Justice in another similar case, that department has decided that the Order-in-Council of 1880 was *ultra vires* inasmuch as it was inconsistent with the provisions of section 13 of the Public Works Act, which admits of no limitations in the amount under or above which public tenders should be called for the execution of any work.

That it must be observed that the action of the Department of Public Works under said Order-in-Council of 1880 has always been acquiesced in by the Auditor General until the beginning of the present month, when he raised the question which was submitted to and reported upon by the Department of Justice, and that several cases similar to the present one have and will occur whereby the department under the present ruling of the Auditor General will be debarred from keeping faith with the contractors and making the payments agreed upon by the terms of the contract.

The minister is of opinion that as the contract in question, as well as others of a similar nature, were given in good faith by the Department of Public Works upon the assumption that the powers granted by the Order-in-Council of 1880 were *intra vires* of the Governor in Council, and furthermore as such authority has never been questioned up to the beginning of the present month, that some arrangements should be made whereby moneys due under any contracts entered into under similar conditions and including the one herein referred to, should be allowed to be paid to the contractors.

The minister desires further to remark that the awarding of the contract in the manner in which it was done, without calling for public tenders, was due to the fact that there was in the accounts of the Department of Public Works an unexpended and available sum of \$15,000 which would lapse if not applied to the work before the end of June, the period of five months from the award (January 29, 1902) and the end of June being considered the shortest time during which the work could be performed, and that should public tenders have been called and the usual time taken, the work could not have been performed and a large proportion of the money would have lapsed at the end of the fiscal year. The matter, therefore, became one of emergency and in the interest both of the Department of Public Works and of the public work concerned that public tenders should be dispensed with.

The Committee concurring in the report, recommend its adoption.

J. J. McGEE, C.P.C.

Extras on Dredge 'Tarte': Orders not given in Writing.

AUDIT OFFICE, OTTAWA, Oct. 23, 1902.

SIR.—Let me acknowledge receipt to-day, from your department, of application No. 153 for \$11,100, in favour of the Polson Iron Works, for the following extras on construction of dredge *J. Israel Tarte*:—

SESSIONAL PAPER No. 1

Hull, increased from 40-ft. beam.....	\$ 3,500
Engines, increased from 17, 28, 46 x 24 to 20, 31, 50 x 25....	2,500
Four boilers, heating-surface increased from 6,000 to 7,664 sq. ft. heating surface.....	3,200
Sturtevant induced draft.....	2,750
	<hr/>
	\$11,950
Less, steamer <i>Stanley</i> , towing pontoons	850
	<hr/>
	\$11,100

In answer to a telephone request, Chief Engineer Lafleur informs me that the orders for these changes were given to the contractors orally instead of in writing. Since the latter method is prescribed by the contract form, an Order-in-Council will be necessary to waive this provision. When were the prices fixed?

The writing of bargains, salutary at all times, becomes rapidly more so as figures increase.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

Extract of Order-in-Council, October 31, 1902.

Public Works.—On a memo. dated October 24, 1902, from the Acting Minister of Public Works, submitting that on April 12, 1901, a contract was entered into between the Department of Public Works and the Polson Iron Works, for the construction of a dredge, to the amount of \$163,800.

That extra work was done in connection with said dredge, for which the company claim the sum of \$11,950, and the Acting Chief Engineer of the Department of Public Works recommends that this amount be paid to the builders, it being, in his opinion, a fair compensation for the extra work performed.

That the Polson Iron Works were given verbal orders to do the extra work in question, instead of being authorized in writing as stipulated in clause 17 of the contract.

The minister, in view of the foregoing, recommends that authority be given to pay to the Polson Iron Works the sum of \$11,950 in full settlement for extra work done in connection with the dredge above mentioned, and to set aside clause 17 of the contract, providing that no extra work shall be done without written authority given prior to the execution of the work.

The Committee advise that the requisite authority be granted.

J. J. McGEE, C. P. C.

Grosse Isle Electric Plant: Contract not Advertised.

AUDIT OFFICE, OTTAWA, August 16, 1902.

SIR.—Let me acknowledge receipt, from your department, of application No. 49 for \$6,989, in favour of Ahearn & Soper, Ltd., for their final estimate on electric plant at Grosse Isle Quarantine Station.

Previous payments, amounting to \$5,639, were made through your Letter-of-Credit, the total of the contract and extras being \$12,628.

The contract is marked 'Ahearn & Soper, Ltd., were the lowest tenderers.' Please inform me of the degree of publicity given to the call for tenders. I do not find any charges for advertising.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, August 24, 1902.

My DEAR SIR,—Let me say, in answer to your communication of August 16, *re* electric plant at Grosse Isle, that tenders were asked from four parties: Ahearn & Soper, L. H. Gaudry, O. H. Picard & fils, Chas. Vézina. Ahearn & Soper being the lowest, the contract was awarded to them.

Yours truly,

J. ISRAEL TARTE, *Minister P. W.*

The Auditor General.

AUDIT OFFICE, OTTAWA, August 29, 1902.

SIR,—Let me acknowledge receipt of your letter concerning Ahearn & Soper's account of \$6,989 for electric plant at Grosse Isle Quarantine Station, wherein you say that tenders were asked from four firms, namely, Ahearn & Soper, L. H. Gaudry, O. H. Picard & fils, and Chas. Vézina; the tender of Ahearn & Soper being the lowest.

The Public Works Act reads: 'The Minister shall invite tenders by public advertisement, for the execution of all works, except in cases of pressing emergency in which delay would be injurious to the public interest, or in which, from the nature of the work, it can be more expeditiously and economically executed by the officers and servants of the department.'

As neither exception is applicable in the present instance, public advertisement for unrestricted competition appears to be the only method provided by the Act, and I find difficulty in recognizing that this section can be fulfilled by any other method, whatever its merits.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDUGALL, *A.G.*

CHIEF ARCHITECT'S OFFICE, OTTAWA, Sept. 27, 1902.

Memorandum.—The installation of the electric light plant at Grosse Isle was urgently required, and in my opinion came under section 13 of the Public Works Act.

The Auditor General.

D. EWART, *Chief Architect.*

Prix et valeur d'un cheval brun tué sur le terrain du Bureau
de Poste, à Hull, par suite d'une chute dans une excava-
tion non protégée. \$150 00

Certified as to accident having happened at place and on date claimed.—Vitalice Laflamme,
Clerk of Works, Hull Post Office.

Examined.—D. Ewart, Chief Architect.

Certified as to liability of department, and fairness of price.—A. Gobeil, D.M.P.W.

DÉPARTEMENT DES TRAVAUX PUBLICS, OTTAWA, le 21 novembre 1901.

MONSIEUR LE MINISTRE,—Vous m'avez donné instruction de vous soumettre un rapport sur la réclamation faite par Madame Veuve Calixte Rouleau, pour la perte d'un

SESSIONAL PAPER No. 1

cheval qui a trouvé la mort dans une excavation pratiquée par le département sur le terrain du Bureau de Poste de Hull.

Cet accident est arrivé dans la nuit du 8 juillet dernier sous les circonstances suivantes :—

Il était question pour le département de construire une clôture d'enceinte au terrain adjoignant le Bureau de Poste, et dans le but de connaître la nature de la fondation sur laquelle les piliers de cette clôture seraient assis, des trous furent pratiqués de distance en distance, ayant de 8 à 10 pieds de profondeur par une largeur moyenne de 7 à 8 pieds. Toutes les excavations en question furent, après, comblées à l'exception d'une, sise sur la lisière extérieure du terrain, presque vis-à-vis l'habitation de Madame Rouleau, et qui avait été laissée sans être remplie pour être visitée par l'architecte du département. Sur cette excavation, le surveillant pour le département avait placé une couverture en planches d'un pouce, retenues par des traverses, et qui en couvrait bien, dit-il, toute l'ouverture. Le lendemain, il n'y avait pas d'apparence que la couverture eut été déplacée, et rien de particulier ne paraissait être arrivé, quand, sur le soir, des personnes passant à travers le terrain du Bureau de Poste crurent voir au fond de l'excavation un objet quelconque, et en enlevant la couverture, elles trouvèrent le cheval de Madame Rouleau.

Il a été supposé que le cheval, s'étant échappé dans la nuit, et errant dans la rue, aura essayé de traverser le terrain du Bureau de Poste, où se trouvait l'excavation en question, et glissant sur les bords de la terre rendue friable, serait tombé dans le trou, qui était assez profond, et dans cette chute se serait blessé de telle façon que sa mort aurait été presque instantanée.

J'ai, quelques jours après, visité l'endroit où l'accident est arrivé. La couverture qui avait été mise sur l'excavation n'était certainement pas assez forte pour porter le poids d'un cheval de trait, mais cette question n'a pas besoin d'être considérée, car l'accident n'est pas arrivé parce que la couverture était trop faible, mais parce que les abords de l'excavation n'étaient pas suffisamment protégés.

J'ai eu occasion de discuter avec MM. Foran et Champagne, qui se sont chargés de la réclamation de Madame Rouleau, les points qui peuvent être soulevés pour ou contre la réclamation. Il me paraissait d'abord absolument impossible, après avoir visité les lieux, de m'expliquer comment il avait pu se faire que le cheval fût tombé dans l'excavation en question en soulevant la couverture qui y avait été mise; qu'il pût se loger au fond, que cette couverture en planches pût ensuite retomber sur l'excavation et la recouvrir si parfaitement que pendant toute une journée de recherches, durant laquelle la propriétaire du cheval et nombre d'autres personnes ont eu occasion de passer près de l'endroit en question, personne n'a vu ni traces du cheval, ni celles qu'auraient dû laisser sa chute, ni le dérangement de la couverture posée sur l'excavation, enfin, aucune indication de l'endroit ou la nature de l'accident. Cependant, après enquête, le fait de l'existence de l'excavation, celui de la chute du cheval et de sa mort, ne peuvent faire de doute pour personne. Il ne reste donc qu'à établir la responsabilité.

Par l'Article 1053 du Code Civil, "toute personne est responsable de dommage causé par sa faute à autrui soit son fait, soit par imprudence, négligence ou inhabileté."

La responsabilité de l'individu qui cause le dommage ne saurait être mitigée que lorsqu'il peut être prouvé négligence contributoire de la part de celui qui a été lésé. Il ne peut faire de doute dans mon esprit que les abords de l'excavation en question étaient insuffisamment protégés. Non seulement l'excavation devait être recouverte, mais il devait y avoir autour soit une clôture, soit une protection sous forme de mur qui fût de nature à protéger absolument les passants, tant bêtes que gens, contre le danger. Pour ce qui concerne l'opinion formée par les cours de justice sur la responsabilité en pareil cas, je prendrai la liberté de vous référer à un jugement rendu par le juge Mathieu, dans le cas de *Lynch vs. Granger*, rapporté dans la *Revue Légale* de 1890, page 366. Dans cette cause il a été maintenu par ce juge, qu'une personne qui pratique une tranchée à un endroit de passage public doit prendre les précautions néces-

saïres pour protéger le public contre les accidents qui peuvent résulter des travaux qu'il a faits; que les précautions ordinaires sont d'entourer ces tranchées par une clôture ou des barrières suffisantes pour empêcher les chevaux, etc., de s'y jeter.

Dans la cause de *McRobie vs. Shuter*, il a été décidé par le juge Papineau qu'un propriétaire d'immeubles est responsable d'un accident résultant de sa négligence à couvrir ou entourer une excavation dans la rue. (Voir rapport de la cour Supérieure pour 1880, page 103.)

Il y a beaucoup d'autres décisions judiciaires dans des cas qui ne sont pas absolument identiques, il est vrai, mais où la responsabilité pour accidents de semblable nature est fixée d'une manière précise sur le propriétaire qui ne prend pas les mesures nécessaires de protection.

D'un autre côté, la sortie du cheval de l'écurie de Madame Rouleau me paraît avoir été purement due à un cas fortuit que la propriétaire n'a pu expliquer elle-même, mais qu'elle n'aurait pas probablement pu empêcher—d'ailleurs, d'après les déclarations que son fils m'a faites, il paraît avoir pris toutes les précautions usuelles pour empêcher le cheval d'errer durant la nuit.

Il ne reste donc qu'à fixer le montant à payer. Madame Rouleau réclame \$150, et je n'ai pas d'autre moyen pour fixer la valeur en question que de produire une déclaration du fils de Madame Rouleau, ainsi que d'une autre personne complètement étrangère à la famille et absolument indépendante dans son jugement. Ces deux déclarations sont à l'effet que le cheval en question valait bien les \$150 réclamées, et en conséquence, je ne puis que vous recommander de faire payer à Madame Rouleau la somme en question.

J'ai l'honneur d'être, monsieur, votre obéissant serviteur,
L'hon. J. Israël Tarte, ministre des Travaux publics. A. GOBEIL, D.M.

Je, soussigné, Fortunat Rouleau, charretier, de la cité de Hull, déclare comme suit:—

1. Je connais le cheval appartenant à Madame Calixte Rouleau, de la cité de Hull, qui a été trouvé mort dans une excavation sur l'emplacement du Bureau de Poste, en la dite cité de Hull, dans le mois de juillet dernier.

2. Le dit animal valait avant l'accident en question la somme de \$150.

3. J'ai signé, et je fais cette déclaration solennelle la croyant consciencieusement vraie et en vertu de l'Acte concernant les serments extra-judiciaires.

Prise et reconnue devant moi, ce 22me jour du
mois de novembre 1901,

THOS. P. FORAN.

FORTUNAT ROULEAU.

Hull Wharf: Freight-shed built as Extra.

DEPT. OF PUBLIC WORKS, OTTAWA, Sept. 15, 1902.

MY DEAR MR. McDOUGALL,—Is there no way of settling the matter of Mr. Bourque's claim against the department in connection with the erection of a shed at the Hull wharf? The money is due, there is not the slightest doubt on that point. The reason why tenders were not called for is: firstly, that the work was considered as a part of the wharf itself, and secondly, that the amount involved is less than \$5,000. Mr. Bourque is in need of his money, and if you could find your way clear to allow him to receive his cheque you would very greatly oblige him.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

AUDIT OFFICE, OTTAWA, Sept. 18, 1902.

DEAR MR. GELINAS,—I duly received your letter of the 15th instant, with reference to the settling of Mr. Bourque's claim against the Department of Public Works in connection with the erection of a shed at the Hull wharf. I saw Mr. Bourque on the subject—in fact he handed your letter to me.

I greatly regret that I could not see my way to comply with Mr. Bourque's desire in this matter. As I explained to the Minister of Public Works, I do not see how this and other claims which are in the same position can be properly dealt with until after the department has quite satisfied itself of the soundness of my position on the subject. According to my view the Order-in-Council with reference to \$5,000 is *ultra vires*, there being an Act of Parliament to the contrary.

I think you will find from the minister that he agrees with me that this matter should be at once submitted by your department to the Department of Justice. I suggested to the Minister of Public Works that I should see the Deputy Minister of Justice, which I have done. Mr. Newcombe will be ready to consider the matter as soon as you submit the case to him. I trust that you will do so at once. As soon as a reply reaches your department I shall be glad to see the minister on hearing from him.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Sept. 26, 1902.

SIR,—With further reference to our conversation, this morning, in re claim of Joseph Bourque for the construction of a shed on the Hull wharf, I beg to state that when the Hull wharf was completed last spring, we were left with an unexpended balance of some \$4,000, sufficient to cover the building of the shed in question. As you know, this amount was to have lapsed on June 30 last, and the contract for the erection of that shed being dated March 24, 1902, the department was left with only three months' time in which to procure all the materials for, and to perform the work itself. Moreover, the foundations of the work had to be done before the rise of the waters, that is to say, before the first days of May. This left us practically one month from the date of the contract. Under these circumstances, are we not justified in stating that there was emergency in the case, and that this special work came within the exceptional cases provided for in section 13 of the Act of Public Works?

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

AUDIT OFFICE, OTTAWA, Sept. 30, 1902.

SIR,—Let me acknowledge receipt, from your department, of Letter No. 133524, in further discussion of Mr. Bourque's claim for building a freight shed on the Hull wharf.

Mr. Gelinat recites the circumstances which preceded the work, and then asks: 'Are we not justified in stating that there was emergency in the case, and that the special work came within the exceptional case provided for in section 13 of the Public Works Act?'

It will be necessary for your department to make a direct declaration of emergency.

If I find any reason to justify my making an objection in any individual case, I shall, of course, raise the objection.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, Nov. 4, 1902.

SIR,—With reference to our recent conversation in your office regarding the difficulties connected with the contract section in the Public Works Act: Will you be good enough to send me a copy of your correspondence with the Department of Justice concerning that section, particularly the reply of the Department of Justice which you read to me? May I ask you to give this matter your immediate attention as so many claims are dependent upon the questions involved.

I am, sir, your obedient servant,

Deputy Minister, Public Works.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Nov. 5, 1902.

SIR,—In reply to your letter of the 4th instant, I beg to send you herewith, as requested, the following copies:—

1. Of a letter from the Department of Public Works to the Department of Justice submitting the case of contractor Bourque in reference to the objection taken by you, concerning the necessity of calling for public tenders.

2. Of a reply from the Department of Justice of October 7, giving an opinion upon the Bourque case, and at the same time, expressing a general opinion in reference to the powers granted by the Order-in-Council of March 23, 1880, and their connection with section 13 of the Public Works Act.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D. M. P. W.

DEPT. OF PUBLIC WORKS, OTTAWA, Sept. 19, 1902.

SIR,—In re claim of contractor Bourque for a shed erected on the Hull wharf: All the papers in this case were handed to the private secretary to the Hon. the Solicitor General on the 17th instant.

The order for erecting the above mentioned shed was given direct to contractor Bourque, without calling for public tenders, as has been the custom of the department for years and years past. In the first place, the building of that shed is considered, although not formally included in the contract for the building of the wharf, as a part of the wharf itself. And secondly, the department contends that the letting of contracts is governed by the Order-in-Council of March 23, 1880, which provides that bids shall be publicly invited for works amounting to over \$5,000. The Auditor General

SESSIONAL PAPER No. 1

claims this Order-in-Council to be *ultra vires*, and this contention is a matter for the legal opinion of the Department of Justice.

You will find attached copy of a letter of even date received from the Auditor General. It is evident that the Auditor General bases his contention on section 13 of the Public Works Act. This section reads as follows:—

‘The Minister shall invite tenders, by public advertisement, for the execution of all works, except in case of pressing emergency in which delay would be injurious to public interest, or in which from the nature of the works, it can be more expeditiously and economically executed by the officers and servants of the department.’ 31 V., c. 12, s. 20.

The Chief Engineer reports that that shed had to be built within the time during which the parliamentary appropriation at our disposal was available. Moreover, that work had to be completed before the rising of waters in the spring. The department submits that in this case there was ‘emergency in which delay would be injurious to public interest.’

I am, sir, your obedient servant,

The Deputy Minister of Justice.

FRED. GELINAS, *Secretary*.

DEPT. OF JUSTICE, OTTAWA, Oct. 7, 1902.

SIR,—Hull Wharf—Bourque’s claim: Referring to your letters of the 19th and 26th ultimo, on the subject of the above claim, I have the honour to state with respect to the points as to which you desire the opinion of this department as follows:—

1. I am of opinion that the Order-in-Council of March 23, 1880, is *ultra vires* of the Governor-in-Council in so far as its provisions are inconsistent with those of the Public Works Act, section 13, and the corresponding section of the Act respecting the Department of Railways and Canals (R.S.C., c. 39, s. 11). Those sections provide that ‘the Minister shall invite tenders, by public advertisement, for the execution of all works, except in case of pressing emergency in which delay would be injurious to the public interest, or in which, from the nature of the work, it can be more expeditiously and economically executed by the officers and servants of the department.’ The Order-in-Council provides that ‘all public works involving an expenditure of over five thousand dollars shall be let by public tender and contract, unless owing to urgency or other cause it be deemed advisable to take different action; and that in all such cases authority be obtained by Order-in-Council.’ The Order-in-Council does not expressly say that where an expenditure of \$5,000 or less is contemplated, tenders need not be invited by public advertisement, but no doubt that is implied, and it is by reason of this implication that the Order-in-Council is invoked in order to uphold the validity of the transaction now in question, namely, the letting to Mr. Bourque, without calling for tenders, of the contract for the freight shed upon the Hull wharf. So far, however, as the Order-in-Council purports or implies a dispensation from the requirement to invite tenders on account of the smallness of the amount involved, or for any other reason than those indicated by the statutes, I am of opinion that it is beyond the power of the Governor-in-Council. If any such provision is thought desirable, it should be made by statute.

2. You state that the Chief Engineer reports that the shed had to be built within the time during which the parliamentary appropriation was available, and you add that it had to be completed before the rising of the waters in the spring, and that this case was a case in which there was, within the meaning of section 13 of the Public Works Act, ‘emergency in which delay would be injurious to the public interest.’ In my opinion the contract is valid and binding if tenders were dispensed with, for the reason that the Minister of Public Works considered that there was a case of ‘pressing emergency’ within the Act.

The Minister of Justice concurs in the views above expressed.

I am, sir, your obedient servant,

DEPT. OF PUBLIC WORKS, OTTAWA, Nov. 12, 1902.

SIR,—You informed me by telephone, the other day, that, in view of the letter from the Department of Justice, concerning the amount to be paid by this department to Mr. Bourque for the construction of a shed on the wharf at Hull, Que., you would be prepared to pay upon a certificate from the Chief Engineer, countersigned by me, that the work in question was of an emergent nature.

I beg now to send you a letter from the Chief Engineer written to the Secretary last month, making the statement in question, which I have duly countersigned.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, *D.M.*

CHIEF ENGINEER'S OFFICE, OTTAWA, Oct. 9, 1902.

SIR,—I beg to acknowledge the receipt of your memorandum of the 6th instant, with a copy of a letter from the Auditor General to the hon. the minister, requesting that a direct declaration of emergency be made in the case of the construction of the shed on the government wharf at Hull, Que.

I am quite at liberty to state that the contract for the construction of the shed was awarded to Mr. Bourque only because the time left at our disposal, before the spring freshets, was so short that none could be spared to call for public tenders, and that moreover we had at the time at our disposal the amount sufficient to pay for the work without asking parliament for a new vote. It was certainly a case where immediate action had to be taken, and one which therefore comes within section 13 of the Public Works Act.

I am, sir, your obedient servant,

The Secretary, Dept. of Public Works.

EUGENE D. LAFLEUR, *A.C.E.*

Approved: A. GOBEIL, *D.M.P.W.*

Montreal Examining Warehouse: Contract not Advertised.

AUDIT OFFICE, OTTAWA, Nov. 18, 1902.

SIR,—Let me acknowledge receipt of your application No. 179 for \$2,395 in favour of Mr. Z. Beauchamp, on account of his \$4,375 contract for carpenter and joiner's work at Montreal Examining Warehouse.

Please describe the manner in which this contract was advertised and awarded.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, Nov. 27, 1902.

SIR,—In reply to your letter of the 18th instant, acknowledging the receipt of our application No. 179 for \$2,395 in favour of Mr. Z. Beauchamp, on account of his \$4,375 contract for carpenter and joiner's work at the Montreal Examining Warehouse, and asking to be informed as to the manner in which this contract was advertised and awarded, I have the honour to say that the contract was awarded for the work to be done according to plans and specification prepared by this department, after the contractors had been invited, by letter, to tender for the work. Tenders were not invited by public advertisement.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary.*

SESSIONAL PAPER No. 1

AUDIT OFFICE, OTTAWA, Nov. 28, 1902.

SIR,—Let me acknowledge receipt of your No. 134347, stating that the carpenter and joiner work at the Montreal Examining Warehouse was not put up for tender by public advertisement.

Please explain your understanding of how sections 13 and 14 of the Public Works Act have been complied with.

To whom did the department send invitations to tender?

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Dec. 20, 1902.

SIR,—In reply to your letter of November 28, asking, in connection with the carpenter and joiner work done by Mr. Z. Beauchamp at the Montreal Examining Warehouse, how section 13 of the Public Works Act was complied with, I beg to state that the Chief Architect reports on the matter as follows:—

‘The Department of Customs was pressing for additional room to meet the urgent necessities of the service, and the alterations and additions being of such a nature that only contractors of experience could be entrusted with them, it was decided to invite reliable firms to tender and thus save time and trouble. This was done accordingly.’

The Chief Architect further reports that in accordance with the above, Messrs. Z. Beauchamp and J. B. Gratton, of Montreal, were asked to tender for the work.

You will therefore kindly see that the urgency referred to in section 13 of the Public Works Act was the deciding reason which prompted the department in dispensing with the usual call for public tenders.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.

AUDIT OFFICE, OTTAWA, Dec. 23, 1902.

SIR,—Let me acknowledge receipt of your 134799½ concerning the account of Mr. Z. Beauchamp for carpenter and joiner's work at Montreal Examining Warehouse, the total contract being for \$4,375.

The Chief Architect's report is: ‘The Department of Customs was pressing for additional room to meet the urgent necessities of the service; and the alterations and additions being of such a nature that only contractors of experience could be entrusted with them, it was decided to invite reliable firms to tender, and thus save time and trouble. In accordance with above, Messrs. Z. Beauchamp and J. B. Gratton, of Montreal, were asked to tender for the work.’

Your letter contains no information as to which of these two gentlemen made the lower tender. Please rectify the omission.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, Jan. 14, 1903.

SIR,—In reply to your letter of the 23rd ultimo, relative to the account of Mr. Z. Beauchamp for carpenter and joiner's work at Montreal Examining Warehouse, I have the honour to state that Mr. Beauchamp's tender for the execution of this work was

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

the only one received at this department.

DEPT. OF PUBLIC WORKS, Feb. 2, 1903.

SIR,—In connection with your letter of December 23, concerning a proposed payment to Mr. Z. Beauchamp for carpenter and joiner's work at the Montreal Examining Warehouse, I beg to inclose a certificate from the Chief Architect which declares the price given to Mr. Beauchamp for that work to be a fair and just one, the contract having been entered into on that understanding.

With reference to the further information needed, in reply to that same letter as to which, of Messrs. Beauchamp and Gratton, made the lowest tender, I beg to inform you that Mr. Beauchamp made the lowest tender received and that you were informed of this fact on January 14 last.

I trust that there shall be no further delay in issuing the cheque, inasmuch as Mr. Beauchamp has several times written to us to the effect that he is much in need of his money.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.

CHIEF ARCHITECT'S OFFICE, OTTAWA, Feb. 2, 1903.

SIR,—An estimate was prepared for the work at the Examining Warehouse at Montreal according to the plans and specifications, and the tender of Z. Beauchamp for carpenter and joiner work, amounting to \$4,375, was considered a fair and just price, and it was on that understanding that its acceptance was recommended.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept.

D. EWART, *Chief Architect.*

Quebec Immigrant Building: Overpayment of \$600.

AUDIT OFFICE, OTTAWA, Dec. 26, 1902.

SIR,—Let me call your attention to two cheques drawn in favour of Ferd. Devarenes in 1901-2, for work done at Quebec Immigrant Buildings:

No. 20931, April 5, 1902, account work done. \$ 600 00

No. 24229, June 10, 1902, work done, February-April. . . . 1,352 35

Voucher No. 24229 describes services between February 19 and April 7, amounting to \$1,352.35. Apparently the previous payment of \$600 on account should have been deducted. Why was this not done?

If \$600 has been overpaid, there should be an explanation from Mr. Devarenes of his reason for keeping the money.

These frequent duplicate payments must result from some weakness in the personal-account ledger of your department. Please describe the manner in which it is kept.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDUGALL, A.G.

AUDIT OFFICE, OTTAWA, Feb. 11, 1903.

SIR,—I do not find that any answer has yet been received to my letter of December 26, 1902, concerning an over-payment of \$600 to Ferd. Devarenes for work done at Quebec Immigrant Buildings.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDUGALL, A.G.

Depot Harbour Breakwater: Specification Changed.

AUDIT OFFICE, OTTAWA, Dec. 24, 1902.

SIR,—In further discussion of the contract with Davis, Haney & Miller, for work to be performed at Depot Harbour breakwater, as shown below:

Additional wharf, 1,250 feet, lump sum tender.....	\$157,500
Rip-rap foundation, say, 15,000 c. yds. at \$2.50.....	37,500

I have just received from Mr. McGee the two Orders-in-Council asked for in my letter of December 9.

The following dates are here tabulated for subsequent consideration:—

- 1900, Sept. 29.—Date of specification for 1,250 feet of wharf.
- 1901, Jan. 22.—Date of advertisement for tenders for same.
- 1901, Feb. 22.—Ten tenders opened. J. T. Davis bids \$157,500.
- 1901, Mch. 23.—Order-in-Council accepting J. T. Davis' offer of \$157,500.
- 1901, May 3.—M. P. Davis associated as J. T. Davis & Co.
- 1902, Apl. 15.—New firm, J. T. Davis, M. J. Haney, Roger Miller. Rip-rap foundation ordered at \$2.50 a yard, say, \$37,500.

Extracts from Specification for 1,250 feet of Wharf.

'4. Ground.—Parties intending to tender for these works are especially requested to visit the place and site of the proposed works, and make their own estimates of the facilities and difficulties attending the execution of the work, including the uncertainty of weather and all other contingencies. Contractors must particularly examine the bottom, the surface of which is of a soft nature, on the site of the proposed works, and satisfy themselves as to the amount of sinkage that is likely to take place, as no claim for extras will be entertained on account of increased sinkage not shown on plan. The soundings, shown on general plan, have been carefully taken and are supposed to be correct, but contractors are required to test their accuracy and take any other soundings they may deem necessary, for it must be distinctly understood that, after signing the contract, the Contractor will be held entirely responsible and liable for the consequences of any error which may at any time be discovered.

'8. Prices.—The bulk sum stated by the Contractor in his tender is to be taken as that upon which he agrees to be paid for all the work embraced in this specification and accompanying plans, and also for all extra work which may be required for the proper execution of the work. The price will be held as rigidly inclusive, and to cover all failures, accidents, contingencies, plant, labour, and materials, and all damage that may happen to occur to the works or any portion of them, or to the plant or tools provided and employed, arising from the action of the elements, either from gales, storms, floods, ice, fire or any other causes whatever, up to their completion and final acceptance by the department.'

'41. Claims.—No claims for extras will be entertained by the department on account of unforeseen difficulties in the carrying out of the works herein specified.'

Extracts from Order-in-Council of April 15, 1902.

'In the specification and on the plans prepared for the execution of the work it was shown that in accordance with the preliminary surveys made, the soft nature of the bottom would cause a probable sinkage of the crib-work to be constructed under the contract of about four feet, and the specifications and plans provided for that probable sinkage, and no more. However, the contractors having examined the ground carefully, hesitated to enter into contract before the sinkage in question would have been definitely ascertained by more minute and careful borings being made; and after the same had been taken along the proposed line of the work it was ascertained that the average settlement would be in twelve feet instead of the four feet first estimated. It now became necessary to provide for the sinkage in question by either building the proposed crib-work to the full additional height required over the 700 feet of its length, or by an artificial foundation of loose stone, and the latter was the mode which recommended itself to the department. It requires a deposit of about 15,000 cubic yards of loose rock on a width of 80 feet, over the distance above mentioned, and the contractors, upon being asked to state a price for that work, agreed to accept the sum of \$2.50 per cubic yard instead of \$3, as mentioned by them previously, the addition to their contract price being therefore estimated at \$37,500.

'The Minister further states that two alternatives presented themselves, one awarding of the contract to these contractors for the work in question at \$2.50 per cubic yard; the other of calling for new tenders for the work. But in the face of the negotiations had with Mr.

'Haney regarding the execution of this additional work, which might possibly constitute a contract binding upon the Crown, the question arose whether the department could legally set aside the arrangement with Mr. Haney and call for new tenders. The Department of Justice, to whom the matter was referred for an opinion on this point, have reported that the correspondence with Mr. Haney constitutes a contract which may be considered binding upon the Crown, unless it is desired to invoke section 34 of the Public Works Act, which provides that no written contract relating to matters under the control of the Minister of Public Works should be binding on the Crown that is not signed by the Minister or Deputy Minister and countersigned by the secretary. . . .'

'The Minister, in view of the foregoing, recommends that the contract for additional works at Depot Harbour already described should be awarded to the above named contractors, at the price agreed upon, viz.: \$2.50 per c. yd., or a total of \$37,500. . . .'

Objection to additional item of \$37,500.

It appears to me that, under the specification, the Contractor's offer of \$157,500 pledged him to find a solid bottom irrespective of the preliminary plans prepared by the government engineers.

If so, the value of the crib-work which would have been needed for 12-ft. sinkage instead of 4-ft., should have been subtracted from the price to be paid for the alternative rip-rap foundation, or some similar deduction.

Please inform me whether the price of \$2.50 a yard for the rip-rap foundation was established on this theory, and let me see the calculations.

I do not understand the remark in the Order-in-Council of April 15, 1902: 'The contractors, having examined the ground carefully, hesitated to enter into contract before the sinkage in question would have been more definitely ascertained.' Their offer of \$157,500 was made, their \$25,000 security was deposited, and their liability was fully staked long before that date.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Jan. 9, 1903.

SIR,—In file No. 250,904, herewith inclosed, the Auditor General states he would like to have more information as to how the price of \$2.50 a yard for riprap foundation of the work now under contract at Depot Harbour was established. I believe the information required by the Auditor General is included in the following extract from my report of July 31, 1901, to the hon. the minister:—

'Mr. James T. Davis has offered to perform the work at the rate of \$2.50 per cubic yard of rock, measured in the scow, which will increase the amount of the contract by about \$37,500, making it \$195,000 instead of \$157,500. The price of \$2.50 per cubic yard I considered under the circumstances fair and reasonable, as considerable additional plant in the way of drills, scows, tugs, &c., will be required to perform the extra work.'

In fact the contractors have had to build large scows, &c., for the execution of the work, as well as lease the land from which the stone is being extracted.

I must therefore adhere to my statement in the report above referred to, that under the circumstances the price of \$2.50 per yard was fair and reasonable. But I may add that I also considered the quantity of stone to be supplied when I recommended that the price of \$2.50 per cubic yard be accepted, as naturally a larger quantity could be supplied at a proportionately smaller price, which would still leave the contractors a fair margin of profit.

I am, sir, your obedient servant,

The Deputy Minister of Public Works.

EUGENE D. LAFLEUR, A.C.E.

SESSIONAL PAPER No. 1

AUDIT OFFICE, OTTAWA, Feb. 11, 1903.

SIR,—Let me acknowledge receipt of your 251336, covering Engineer Lafleur's report on my letter of December 24, concerning Depot Harbour breakwater.

Mr. Lafleur repeats his certificate that \$2.50 per yard for the stone is a fair and reasonable price for the quantity involved; but that was not my question.

Is \$2.50 a yard a fair and just price for the difference between cribwork and rip-rap foundation?

The contractors were to build crib-work as part of their lump sum contract. If they are relieved from that obligation, the value of it should be deducted.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

Deseronto Post Office: Fence built as an Extra.

AUDIT OFFICE, OTTAWA, Dec. 18, 1902.

SIR,—Let me acknowledge receipt of your application No. 244 for \$225.75 in favour of Richard Sheehy, being balance due on his estimate No. 11 for Deseronto Post Office.

We do not seem to have a certificate that the main contract of \$25,687 was let to Mr. Sheehy as the lowest tenderer after public advertisement. Please rectify this omission.

There is a new item of extras, of \$1,644, on account of a \$2,000 stone fence around the building. How was competition invited for this work?

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Dec. 20, 1902.

SIR,—I have your letter of the 18th instant, inquiring about the awarding of the contract for the Deseronto Post Office. In reply, I beg to state that tenders were asked by public advertisement, and the lowest tenderer was Mr. Robert Cameron, who declined to sign the contract on account of an error when figuring the amount of his tender. His security cheque was forfeited. The contract was then offered and awarded to Mr. Richard Sheehy.

As to the stone fence, no public tenders were invited, this work being only an additional one in connection with the construction of the building itself, and the department considers it as forming part of the main contract.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

AUDIT OFFICE, OTTAWA, Dec. 23, 1902.

SIR,—Let me acknowledge receipt of your 134,798, concerning the account of Richard Sheehy for work on Deseronto Post Office:—

It is therein stated that the lowest tenderer was Mr. Robert Cameron, who declined the contract and forfeited his security. The contract was then awarded to Mr. Richard Sheehy.

Please inform me whether Mr. Sheehy's tender was the next lowest to Mr. Cameron's.

In favour of the theory that the stone fence is not connected with the construction of the building itself, a strong argument appears to be that the original specification was prepared without the fence. If the two were inseparably connected, the fence

would naturally have been specified as part of the main contract. Also, there seems no difficulty in the fence being built concurrently by other workmen.

In future, unless there occurs any radical objection, would it not be better to have such services included in the main tender, and secure all the advantages of open competition?

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Dec. 31, 1902.

SIR,—Referring to your letter of the 23rd instant, in regard to the account of Richard Sheehy, for work in connection with the Deseronto Post Office, I beg to state that Mr. Sheehy's tender was the second lowest, Mr. Cameron's tender being the lowest.

As regards the stone fence, I may say that the same system was followed in this instance as has been the custom in the past. The fencing of lots is left until the buildings are erected, as a much better idea can be then formed as to the distance the fence should be kept back from the street lines.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

Hamilton Custom-House: Purchase of Building.

AUDIT OFFICE, OTTAWA, Oct. 3, 1902.

SIR,—Let me acknowledge receipt, from your department, of application No. 124 for \$9,000 in favour of Ross Bros., being purchase-price of site and building for Custom-House Extension at Hamilton.

The Order-in-Council says: 'Upon the lot adjoining the Custom-House stands a building which can easily be connected with the Custom-House, and would in every respect be suitable for Customs purposes.'

Mr. Ogilvie's certificate reads: 'The building would cost to erect at least \$7,500, and the land is worth at least \$2,000. The price asked, \$9,000, is a reasonable figure.'

With all purchases of second-hand property, we need the date at which it was new. When was the building put up? I assume that Mr. Ogilvie's estimate of \$7,500 is for a new building.

I am, sir, your obedient servant,

HON. J. ISRAEL TARTE,

Minister of Public Works.

J. L. McDUGALL, A.G.

CHIEF ARCHITECT'S OFFICE, OTTAWA, Oct. 7, 1902.

SIR,—*Re* Auditor General's letter to the Hon. Mr. Tarte, of October 3, 1902.

I do not know when the building was erected, but can certify that the building is in good condition, and has not materially deteriorated; and as the building stands is a cheap building at \$7,500.

When figuring the building to cost \$7,500, I took into consideration that the material and the labour at that time was very much cheaper than at the present. To erect such a building at the present time would cost not less than \$10,000.

I am, sir, your obedient servant,

The Chief Architect.

A. L. OGILVIE.

SESSIONAL PAPER No. 1

AUDIT OFFICE, OTTAWA, Oct. 13, 1902.

SIR,—Let me acknowledge receipt of your letter No. 133670, inclosing a memorandum from Mr. A. L. Ogilvie concerning the Ross building which it is proposed to buy for Custom-House extension at Hamilton.

In reply to a question from this office, Mr. Ogilvie states: 'I do not know when the building was erected.'

Please ask Mr. Ogilvie to ascertain the date. This can probably be done by correspondence.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

HAMILTON, ONT., Oct. 17, 1902.

SIR,—Your Mr. A. L. Ogilvie writes on the 4th instant, requesting us to inform you when the buildings on our property adjoining the Customs-House in this city were erected. In reply, we beg to state that the front building, extending some forty feet back, was originally erected about the year 1850. Some eighteen years ago it was thoroughly overhauled and made suitable for the general offices of the Hamilton and Northwestern Railway. Since coming into our possession ten years ago we have put a new pressed brick front in the lower story, re-floored and otherwise repaired the whole of this building, including slate roof.

The large three story and basement building in the rear was erected some twenty years ago and, was very substantially built for a warehouse. These are the only buildings on the property.

Hoping this information will be satisfactory, we are, sir,

Yours respectfully,

The Chief Architect.

ROSS BROS.

Toronto Junction Post Office : Purchase of Site.

AUDIT OFFICE, OTTAWA, Aug. 13, 1902.

SIR,—Let me acknowledge receipt, from your department, of application No. 682 for \$4,500, in favour of the Real Estate Company of Canada, to pay for site of new Post Office at Toronto Junction, being 60 feet frontage, at \$75 a foot.

Mr. Ogilvie's certificate reads: '\$75 per foot frontage I would consider very reasonable if the clause in the purchasing-agreement, requiring the government of Canada to keep vacant and unbuilt upon for some 20 feet on the west side of the aforementioned lot, was eliminated from the purchasing-agreement.'

This cannot be considered as a certificate of 'Price fair and just,' unless proof is attached to show that Mr. Ogilvie's suggestion has been adopted.

I am, sir, your obedient servant,

HON. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Aug. 23, 1902.

SIR,—In reference to your letter of the 13th instant, concerning the payment of the purchase money for a site at Toronto Junction, and the report of Mr. A. L. Ogilvie in the matter, I am directed to inform you that as soon as the condition reported by Mr. Ogilvie was made known to the hon. the minister, he communicated with the owners, declining to agree to such condition and to its insertion in the deed of sale. His desires were immediately acceded to, and the deed such as passed does not contain any such condition.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.P.W.

Purchase of Steamer 'Tyrian,' built in 1869.

DEPT. OF JUSTICE, OTTAWA, August 12, 1902.

SIR,—*Re ss. Tyrian*.—Referring to the fact that the appropriation for the purchase money lapses on the 15th instant, I suggest that it would be advisable to issue a cheque payable to the executors of the late James T. Hamilton, and our agent W. B. Ross, K.C., for the amount of the purchase price. It appears that the Hamilton estate is substantially the owner of the vessel. Our agent will, of course, be instructed not to pay the amount over until he obtains a clear title in His Majesty. Should the negotiations, from any cause, fall through, the cheque can be returned.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

A. POWER, *Acting D.M.J.*

AUDIT OFFICE, OTTAWA, August 13, 1902.

SIR,—Let me acknowledge receipt, from your department, of application No. 688 for \$20,000, to pay estate of James Hamilton for purchase of steamer *Tyrian* now used for cable service.

Mr. McGee has not yet supplied me with a copy of the Order-in-Council of December 14, 1901, concerning this transaction.

As with previous purchases of articles not entirely new, it would be well to record the original cost as far as known, the age of the vessel, and the probable number of years it may still be expected to run.

If the purchase is not completed by August 15, the cheque of 1901-2 should not be used.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, August 16, 1902.

DEAR SIR,—With reference to your letter of the 13th instant, concerning the purchase of the ss. *Tyrian*, I beg to state:

1. That I understand the Order-in-Council concerning said purchase has been sent over to you, and is now in your possession.

2. In reply to the third paragraph of your letter, I beg to state (a) that the original cost of the *Tyrian* is not known to the department; (b) that the vessel was built at Glasgow in 1869; (c) that it is an iron ship, and that it is, therefore, difficult to say how many years she may be expected to run. If no untoward accident happens to her, she may be still in commission for many years, and she has rendered us, both this year and last, excellent service; (d) the purchase of the vessel was completed in December last, when she was delivered to and received by us, the rental hitherto paid for her use ceasing at that time. Legally the purchase was then completed.

Trusting that the above will be sufficient to enable you to pass the certificate issued by us in this case.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, *D. M. P. W.*

AUDIT OFFICE, OTTAWA, August 28, 1902.

SIR,—With further reference to the purchase of the steamer *Tyrian* for cable service:

Mr. McGee has not yet supplied me with a copy of the Order-in-Council of December 14, 1901, concerning this transaction.

SESSIONAL PAPER No. 1

Mr. Gobeil's letter states that the original cost of the *Tyrian* is not known to the department, and that it is difficult to say how many years she may be expected to run.

My inquiry as to original cost and probable duration expected only approximate answers, and it is difficult to see how a satisfactory certificate of 'Price fair and just' can be made without these data. Please have estimates made.

You will find a discussion about a similar transaction at page C—386 of my report for 1892-3, when the dredge *Mudlark* was bought from Rithet & Co.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,

J. L. McDOUGALL, A.G.

Minister of Public Works.

QUEBEC, Sept. 1, 1902.

MY DEAR MR. McDOUGALL,—*Re purchase of Tyrian*: I have supervised the purchase myself, and I may add that a few weeks ago I have made a personal inspection of the boat in view of coming to a decision as to disposing of the *Tyrian* one way or the other—keeping her or selling her. The *Tyrian* is an old iron steamer. Her lines are beautiful. The hull is in a perfect state of preservation. I had her placed in the dock at Halifax and thoroughly overhauled by some of my officers and by the Inspector General of ships.

In point of fact, the *Tyrian* is so strongly built that I do not think that there are more than two or three ships afloat as strong as she is. Among those is the old *Lake Superior*, which has gone ashore on rocks at St. John's, and which has not been destroyed, in spite of the heavy seas to which she has been subjected at times. I require the boat for the service of my departmental cables. The ship is well equipped for cable service. She has good tanks in her hull, and good implements on her deck. She has been strengthened to make her capable of carrying the heavy load that a cable equipment implies. After my visit and inspection of the boat, I have resolved to keep her, as I feel satisfied that I could not buy a similar boat for, perhaps, double the price that she costs us at the present time.

I will see that a copy of the Order-in-Council of December 14 is forwarded to you.

I think that the boat is about thirty years old. Her hull will certainly last thirty years more, as it is thoroughly sound and of such a strength that no ships are built that way in our days.

I will instruct my officers to send you a copy of the certificates that have been given to us after the boat had been placed in the dock at Halifax.

Believe me, truly yours,

The Auditor General.

J. ISRAEL TARTE.

Gold Run Creek Road: Contractors dissatisfied with their Tender.

AUDIT OFFICE, OTTAWA, Aug. 15, 1902.

SIR,—Let me acknowledge receipt, from your department, of application No. 686 for \$19,689.25, in favour of Palmer Bros., being balance of claim for construction of road from Williams Road House to mouth of Gold Run Creek, in the Yukon Territory.

The claim is calculated as follows:—

Section 1: 7½ miles, at \$1,350.....	\$10,125 00
Section 2: 8.06 miles, at \$1,400.....	11,284 00
Extra culverts, 210 lin. feet, at \$25.....	1,625 00
Building bridges.....	1,419 00
Extra corduroy, 4,015 feet, at \$1.75....	7,026 25
Paid April 27, 1901, on report of insp. Thibaudeau..	\$11,790 00
Present claim.....	19,689 25

\$31,479 25 \$31,479 25

Please procure for me a copy of the report of Inspector Thibaudeau on which \$11,790 was paid; and send also the plans and profiles mentioned in the contract.

At first sight, the claim appears to be based on a straining of the contract-wording. Apparently bridges and corduroys were included in the tender for completed roads.

I am, sir, your obedient servant,

HON. J. I. TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

DAWSON, June 27, 1902.

SIR,—In accordance with your instructions, I have examined the Gold Run road from William's Road House to the mouth of Gold Run Creek built by Palmer Bros. during September and October, 1900, and have inquired into the conditions under which the said road was constructed, the ruling prices of labour in the district at the time, the cost of freighting, &c., and beg to make the following report:—

I measured the total distance built and noted all culverts, bridges, parts corduroyed, cuts, fills, &c., and found that, while considerable work has been done by the maintenance department since 1900 in the way of constructing additional culverts, corduroying parts of the road, &c., the contractors had evidently carried out the work placed in their hands in all good faith as directed.

I find from the records that the amount the maintenance department has spent in building culverts, corduroying, &c., since 1900 is about \$2,500; the amount expended in ordinary repairs, such as ditching, snow shovelling and works of like nature being excluded from this.

After working out in detail the cost of constructing the said works under the conditions obtaining at the time and deducting the above \$2,500, I have come to the conclusion that no contractor could afford to build the road as it was finished by Palmer Bros. in 1900, for less than \$2,000 per mile.

The total length of the road, as measured by me, is 82,075 feet, or 15.544 miles, which, at \$2,000 per mile, amounts to a small percentage less than that claimed by Palmer Bros., and I would therefore submit that they are entitled to the amount asked, viz., \$31,479.25, for the work done in its construction.

Respectfully submitted,

HON. J. H. ROSS, ESQ.,
Commissioner, Yukon Territory.

A. J. McPHERSON,
Territorial Civil Engineer.

DAWSON, Jan. 26, 1901.

SIR,—In the matter of a proposed settlement of the amount due to Palmer Bros., contractors, for the construction of a wagon road from William's Road House to the mouth of the Gold Run Creek, Y.T., I beg to report as follows:—

Length of section No. 1, $7\frac{1}{2}$ miles; contract price per mile, \$1,350, or \$10,125 for section No. 1.

Length of section No. 2, 8.06 miles; contract price per mile, \$1,400, or \$11,284 for section No. 2.

Total amount of contract, \$21,409.

Under your decision relating to the interpretation of specification for the construction of the said wagon road consequent upon the difference of opinion between the contractors and myself,

SESSIONAL PAPER No. 1

I recommend that the following deductions be made from the contract price:—

The roadway being built on an average width of 11 feet, to widen the road according to contract.....	\$6,665 00
For corduroy not properly built, and rebuilt $1\frac{1}{2}$ mile, according to specification (estimate cost per mile \$3,000, deducting \$1,805 for work already done)....	2,695 00
For 14 culverts not properly built, and rebuilt the same according to specification (estimate average cost, \$25 per culvert, deducting \$100 for timber already on the ground).....	250 00
Total amount to be deducted.....	\$9,610 00
Balance due.....	\$11,790 00

I hereby certify that according to contract and specifications, I consider said Palmer Bros., contractors, to have performed work equivalent to \$11,790 of the whole work covered by contract and specifications, which I recommend be paid as a final settlement.

I am, sir, your obedient servant,

J. C. TACHÉ, Esq.,
Resident Engineer for Yukon Territory.

W. THIBAudeau, *Inspector.*

AUDIT OFFICE, OTTAWA, Sept. 4, 1902.

SIR,—In further discussion of the claim of Palmer Bros. for payment of \$19,689.25 for construction of Gold Run Creek road, in addition to \$11,790 previously paid:

The report of Inspector Thibaudeau, recommending \$11,790 in final settlement, according to Engineer Taché's interpretation of the contract, has just reached me. Had this report been forwarded along with the application and voucher, on August 12, the matter could have been finally disposed of at that time, as far as this office is concerned, by declining to make further payment.

The final paragraph of Inspector Thibaudeau's report is: 'I hereby certify that according to contract and specifications I consider said Palmer Bros., contractors, to have performed work equivalent to \$11,790 of the whole work covered by contract and specifications, which I recommend to be paid as a final settlement.' This report was dated January 26, 1901.

In June, 1902, under instructions from Commissioner Ross, a valuation of the road was made by Mr. A. J. McPherson, Territorial Civil Engineer. This valuation, concurred in by Superintendent of Public Works Bertrand, is about \$2,000 a mile, or \$31,479.25 for the whole distance.

The report of Mr. McPherson, however, makes the mistake of ignoring the contract signed by Palmer Bros. to build the two sections for \$1,350 and \$1,400 a mile respectively. As the contract must govern, Mr. McPherson's valuation is absolutely irrelevant.

In future cases of this kind, where discussion is probable, it would be better to send the papers to the Audit Office at as early a date as possible. It is always difficult to make full inquiry during the press of work incident to the closing of the fiscal year.

I am, sir, your obedient servant,

HON. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDougall, *A.G.*

2-3 EDWARD VII., A. 1903

DEPT. OF INTERIOR, OTTAWA, Dec. 10, 1902.

SIR,—I beg to inclose you herewith a copy of a letter sent me by Mr. A. Gobeil, Deputy Minister of Public Works, regarding the claim of Palmer Bros. I would esteem it a favour if you would let me know just what the objection is to the payment of the account as certified by the local engineer. I may add that quite recently a certificate has been received from Mr. W. Thibaudeau, C.E., in which he concurs in the finding of Mr. McPherson.

I am, sir, your obedient servant,

The Auditor General.

JAS. A. SMART, *D.M.I.*

DEPT. OF PUBLIC WORKS, OTTAWA, Dec. 6, 1902.

SIR,—With reference to your letter of the 2nd instant, concerning the refund of a sum of \$15,748.27 to the Yukon Council, I beg to inform you that a cheque for the sum in question was sent to the Bank of Commerce on August 15 last.

As regards the claim of Messrs. Palmer Bros. for the construction of a right of way, I have to say that during the course of last session the sum of \$20,000 was appropriated by Parliament for the purpose of paying the said claim. Upon the papers being sent to the Auditor General, this officer declined to make the payment in view of the fact that the contractors had not complied in the execution of their work with the terms of the contract they had entered into.

The matter is still in the hands of the Auditor General.

I am, sir, your obedient servant,

J. A. SMART, Esq.,

A. GOBEIL, *D.M.P.W.*

Deputy Minister of the Interior.

AUDIT OFFICE, OTTAWA, Dec. 16, 1902.

SIR,—Let me acknowledge receipt of your 743524 dated December 10, concerning the account of Palmer Bros. for construction of Gold Run Creek road, Yukon Territory.

Inclosed please find copies of the following documents: Inspector Thibaudeau's recommendation in final settlement, dated January 26, 1901; Mr. A. S. McPherson's report of June 27, 1902; and my letters of August 15 and September 4, 1902.

You will notice that Palmer Bros. contracted to build the two sections of the road for \$1,350 and \$1,400 a mile respectively; that Inspector Thibaudeau's report is made up on this contract-basis; and that the substance of Mr. McPherson's report is: 'I have come to the conclusion that no contractor could afford to build the road as it was finished by Palmer Bros. in 1900, for less than \$2,000 per mile.'

Where would we be, if all contract-settlements could be re-opened, merely because the contractors were dissatisfied with their profits? If Palmer Bros. lost, that was one of the risks they took. Would we have had a refund from them, if they had gained more than they expected?

I am, sir, your obedient servant,

J. A. SMART, Esq.,

J. L. McDougall, *A.G.*

Deputy Minister, Interior Department.

Yukon Expenditure: Loans from Banks.

AUDIT OFFICE, OTTAWA, April 6, 1902.

DEAR MR. TARTE,—You remember that some time before the beginning of the session I had an interview with you, and I explained my reason for the view that, when in the opinion of the government, money should be expended, there being no appropriation for the purpose, it should be spent under a Governor's Warrant instead of by bor-

SESSIONAL PAPER No. 1

rowing money from the bank without any authorization. I subsequently had a correspondence with the Minister of Finance on the subject. The correspondence is in my report.

While Mr. Charleson's Yukon telegraph accounts were being discussed last year at the Public Accounts Committee, I did not know that you owed to two banks (the Bank of Commerce and the Bank of British North America) large sums which were paid from appropriations made during the session. If instead of borrowing without the knowledge of any official outside of your department, you had obtained funds under a Governor's Warrant I would have known all about last season's expenditure, and have been in a position to explain it to the committee if asked.

Now, at this session you are still in debt to a bank, this time for last season's work, how much I do not know.

It seems to me very likely that if any extended examination of the statements of these accounts, as they appear in the report of this office which is now before the Public Accounts Committee, is made by the committee it will be necessary to explain the objections to the method which has been adopted.

The whole of the claims in connection with last year's expenditure on Yukon Telegraph Construction should be brought to account and be closed while Messrs. Charleson and Rochester are here, and consequently the bank or banks be immediately repaid. The supplementary estimates required, if any are required, should be at once brought down and have special right of way until they are assented to by the Governor General.

I shall be glad to assign to the examination of the accounts a person whose entire services will be devoted to them until they are put in complete order. Of course I mean after your own department has done its work in connection with them.

It would appear to me advisable that you, Mr. Fielding and myself should discuss the question together before matters reach that stage. I should have much pleasure in suiting the convenience of yourself and Mr. Fielding as to time and place.

Perhaps you will excuse my rather abrupt method of dealing with the subject, but time presses.

I send a copy of this to Mr. Fielding.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

Public Buildings in Yukon Territory.

Order-in-Council, June 19, 1902.

Public Works.—On a memo. dated June 17, 1902, from the Minister of Public Works, submitting that Parliament at its last session voted an amount of \$76,500 in the main and \$25,000 in the supplementary estimates, for the maintenance of public buildings in the Yukon, and a further sum of \$34,000 was appropriated for the construction of new public buildings in the same Territory, making a total of \$135,500.

The Minister further submits that it has been decided that the only public buildings which the Department of Public Works is to keep control of in said Territory after June 30, are the Post Office and the Government House at Dawson, and the White Horse public building, which will require, out of the appropriation for maintenance, a sum of \$36,000.

That the sum of \$8,000 is to be deducted by the Public Works Department from the appropriation for the construction of public buildings, said sum to be used for fences, grading, filling, walks, &c., for the Government House and Post Office at Dawson, and for the furniture of the White Horse public building and the Dawson Post Office.

The Minister, in view of the foregoing, recommends that authority be given to transfer to the Yukon administration the sum of \$65,000 out of the vote of \$101,500 for maintenance, and \$26,000 out of that of \$34,000 for construction of public buildings in the Yukon Territory, making in all a sum of \$91,000.

The committee submit the same for His Excellency's approval.

JOHN J. MCGEE, *C.P.C.*

AUDIT OFFICE, OTTAWA, August 28, 1902.

SIR,—Yesterday my attention was called to an application from your department dated 24th ultimo, for payment to the Government of the Yukon Territory of \$35,000, being \$10,000 on account of Capital and \$25,000 on account of Maintenance. This was based upon an Order-in-Council of June 19, authorizing the transfer of \$91,000 to the Yukon Administration. Mr. A. G. Kingston, your accountant, interprets this as meaning the transfer of the money bodily without requiring any vouchers at any time from the Government of the Yukon Territory to show that the money has been expended according to the usual requirements of Parliament.

Several reasons caused me to have a credit issued to the Commissioner and the Controller, instead of making direct payment to the Government of the Yukon Territory. In the first place I was not quite clear that it was intended by the Order-in-Council that the money should be paid out on the understanding that there was to be no evidence of its having been used for the purpose for which it was voted by Parliament, or to the extent that it had been voted. (2nd.) It appeared to me that it was quite clear that no authority could free me from the responsibility of seeing that the directions of Parliament were followed. (3rd.) In view of the pressing and repeated telegrams from Mr. Smart, Deputy Minister of the Interior, who is now at Dawson, to his department, it was evident that it would be a serious inconvenience to have payment long delayed. (4th.) I could not see that any possible evil result could arise to the Government of Canada or the Government of the Yukon Territory by making payments through a credit instead of by direct transfer of the money. (5th.) Because Mr. Kingston declined to make application for a credit, I took the responsibility myself.

I shall, of course, be glad to consider at once any objection that may be raised by you. One reason for the course which I adopted was that you were absent when the matter was under consideration.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDUGALL, *A.G.*

Yukon: Board charged for Engineer's Wife.

AUDIT OFFICE, OTTAWA, Dec. 16, 1902.

SIR.—Let me call your attention to the following items in the expenditure-accounts of Mr. Paul E. Mercier, the engineer in charge of 'Lewis and Yukon River Works,' stationed at White Horse:—

Rent of cottage, March 1 to 23, 1902, at \$25 a month, paid to British Yukon Co.	\$ 18 55
Rent of room, March 23 to August 15, at \$50 a month, paid to J. A. Lefebvre.	237 90
Rent of room, August 16 to 31, 1902, at \$50 a month, paid to Robert Lowe.	25 00
Board paid to H. F. Seward, March 1 to August 31, 6 months, at \$135.	810 90

SESSIONAL PAPER No. 1

The six sub-vouchers rendered by H. F. Sieward read: 'To Mr. P. E. Mercier, to boarding for Mrs. Mercier and yourself, \$135.'

Please obtain from Mr. Mercier a refund of \$405, being the half of \$810 shown above.

The vouchers carry no certificate of 'Expenses incurred on Government business.' This omission should be rectified.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Dec. 20, 1902.

SIR,—I have the honour to acknowledge the receipt of your letter of the 16th instant, *re* expenditure accounts of Mr. Paul E. Mercier, engineer in charge of the Lewis and Yukon River Works, and asking that a refund be obtained from Mr. Mercier, of the sum of \$405, being half the item of \$810 for board paid to H. F. Sieward, from March 1 to August 31.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

AUDIT OFFICE, OTTAWA, Feb. 10, 1903.

SIR,—Let me call your attention to my letter of December 10, 1902, concerning a charge in Mr. Paul Mercier's accounts, for board of Mrs. Mercier at White Horse. The sum in question was \$405, of which a refund was asked.

Please inform me whether Mr. Mercier has yet made the refund.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

Supply-Bill limits Expenditure.

AUDIT OFFICE, OTTAWA, Nov. 14, 1902.

SIR,—Let me acknowledge receipt of your application No. 8 for a transfer of \$1,456.48, crediting Port Elgin Harbour and charging 'Dredging, Ontario.'

Your explanation is: 'The Acting Chief Engineer states that this item of dredging, done in June last, was not in contemplation when the Vote of \$5,000 for the fiscal year 1902-3 was framed, and that the whole of this appropriation will be required to pay for work now in progress.'

According to the view always taken by this office, the Vote of \$5,000 is not only an authority to spend \$5,000: it is also a limit which the service is not to exceed.

I regret, therefore, being unable to certify the transfer in question. Your application is returned herewith.

I am, sir, your obedient servant,

The Accountant, Public Works Dept.

J. L. McDOUGALL, A.G.

Every Officer should have some Headquarters.

AUDIT OFFICE, OTTAWA, Jan. 21, 1903.

SIR,—Let me call your attention to Voucher No. 18175 from Mr. A. R. Dufresne, for expenses connected with the Hydrographic Survey between Kingston and Prescott.

A sub-voucher for \$13 is included, from M. A. Dufresne, reading 'Received from A. R. Dufresne the sum of \$13, being for board from Nov. 19 to 26, 1901, 6½ days at \$2, M. A. Dufresne.'

There is a foot-note by A. R. Dufresne: 'The above account is for board from day of arrival from Kingston until notified to remain in Ottawa.'

Every government officer should have some headquarters, at which he pays his living expenses out of his own salary. In this instance it may be inferred, from the charges for provisions for the survey party to which Mr. Dufresne was attached, that the department paid his expenses while away from Ottawa. If so, the \$13 above mentioned should be refunded.

A similar remark applies to an item of \$18, in voucher 14997 from Mr. S. J. Chapleau, the engineer in charge of the same party.

I am, sir, your obedient servant,
The Secretary, Public Works Dept. J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Jan. 23, 1903.

SIR,—I have the honour to acknowledge the receipt of your letter of the 21st instant, calling attention to Vouchers Nos. 18175 and 14997 from A. R. Dufresne and S. J. Chapleau, for expenses connected with the Hydrographic Survey between Kingston and Prescott.

I am, sir, your obedient servant,
The Auditor General. FRED. GELINAS, *Secretary*.

DEPT. OF PUBLIC WORKS, OTTAWA, Feb. 6, 1903.

SIR,—In regard to the above file and voucher No. 14887, I beg to state that the living account, of which the above voucher is the receipt, was included in my expenses account for November, 1901, because upon my arrival here November 19, at the end of the season's work in the field, together with my entire equipment, no office room was available for my use. I was instructed to await orders relative to taking an office in Brockville for the completion of the office work, and on November 26 was directed by the Hon. the Minister not to go to Brockville, as an office in the House of Commons could be used.

The period between the above dates is that charged for, as I had neither residence nor office in Ottawa at the time, and was upon waiting-orders as to the location of my future headquarters.

Voucher No. 18175, from my assistant, Mr. A. R. Dufresne, was possibly charged for the same reason.

Respectfully your obedient servant,
The Acting Chief Engineer. S. J. CHAPLEAU, *Asst. Engineer, P.W.D.*

AUDIT OFFICE, OTTAWA, Feb. 14, 1903.

SIR,—Let me acknowledge receipt of your 135811 of Feb. 12, covering a letter from Asst. Engineer S. J. Chapleau on the subject of his charge for living-expenses while in Ottawa.

The reason given by Mr. Chapleau—that it was not known between Nov. 19 and 26 that he was to remain in Ottawa—does not, I think, affect the self-evident principle quoted in my letter of Jan. 21, 'That every government officer should have some headquarters at which he pays his living-expenses out of his own salary.'

Were there any such headquarters at any place on the Hydrographic Survey of the St. Lawrence, or has the government paid the board of Messrs. Chapleau and Dufresne since their departure from Ottawa up to their return? If so, their official home would appear to be Ottawa, and they should refund all charges for living-expenses here. Please see that this is done, unless there is some argument to the contrary which I have overlooked.

I am, sir, your obedient servant,
The Secretary, Public Works Dept. J. L. McDOUGALL, A.G.

Errors in Accountant's Branch.

AUDIT OFFICE, OTTAWA, Nov. 29, 1902.

SIR,—Let me acknowledge receipt, from the Accountant's Branch of your department, of an application for a transfer entry, charging 'Water, Dominion Buildings,' and crediting 'Lighting, Dominion Buildings' with \$30.

The Accountant's explanation is : 'To correct clerical error in list.'

In view of the frequency of these applications for correction of clerical errors, it would be well to find out from the Accountant whether he is able to make any new arrangement by which the work would be put into more accurate hands.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, Jan. 28, 1903.

SIR,—Let me call your attention to the account of Mr. James W. Woods for flags supplied in September, 1901, for 'Reception of Duke of York.'

Payments to Mr. Woods—

	Cheques.	Vouchers.
1901, Oct. 4: on account flags supplied.....	\$ 5,000 00	\$
1902, May 17: on account bannerets.....	2,000 00	
1902, May 19: Union Jacks, &c.....	1,609 69	
1902, May 19: Bal. for bannerets.....	2,958 95	
1902, May 19: Canadian Ensigns....	4,569 00	
1902, May 19: 225 burgees, and statue-veil..	290 75	

Vouchers rendered Sept. 24, certified Nov. 7, 1901—

Canadian Ensigns....	4,569 00
Bannerets, &c....	4,958 95
Burgees, \$233.75; statue-veil, \$57.....	290 75
Union Jacks, &c.....	1,609 69

\$16,428 39 \$11,428 39

It appears from these dates, that after presentation of his accounts in Sept., 1901, Mr. Woods got a payment of \$5,000 on account in October, 1901; but that this \$5,000 was not deducted in May, 1902, when making settlement.

Please let me know whether this is a correct description of the transaction. If so, explanations are needed, from the Accountant's Branch and from Mr. Woods. Also a refund of the \$5,000 so long held out, with interest to date.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, Jan. 29, 1903.

SIR,—With reference to the many instances of duplicate payments in your department in the fiscal year 1901-2, which have been brought out by the examination now closing in this office, it is manifest that there is a serious weakness somewhere in your Accountant's branch. Assuming this conclusion, it is plain that a different state of affairs must be brought about. With this object in view the first thing to be done by you, it appears to me, is to ask the Accountant for an exhaustive report on the duties which he has assigned to the separate members of his staff, the manner in which they perform those duties, on the books which he keeps, the reason or reasons for the irregularities and the means by which he expects to prevent them in the future, if he thinks that he can prevent them in the future without your assistance, or if with your assistance, the nature of the assistance and the extent to which it should be applied. He will, of course, be expected to have the utmost latitude in expressing views as to necessary remedies, and to be held responsible for withholding the statement of any means which in his view might have the effect of strengthening the branch, so as to prevent the irregularities which have occurred, or in making any other salutary change.

Will you cause this report to be made immediately and have a copy of it forwarded to me without delay, accompanied by a statement of how far you are going to adopt the Accountant's suggestions of changes, or to take other steps to bring about the required changes?

If you have an opinion that it is not your duty or interest to take the action I advise, or question my authority or official interest in this matter, I shall be glad to hear from you.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept.

J. L. McDougall, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Jan. 30, 1903.

SIR.—I beg to inclose a statement of account current between this department and Mr. J. W. Woods. The triplicate deposit receipt for \$2,940.44 was sent to Receiver General with Statement No. 15 yesterday. I also inclose copy of letter received from Mr. Woods upon this subject on December 27 last. I may add that when the fact of over-payment was discovered about the end of May last, Mr. Woods expressed himself as prepared to make a refund; but as he had supplied goods to a considerable amount to various branches of the department, the accounts for which had not then been certified for payment, he claimed that these should be treated as an offset. Further, the deputy minister was then on leave of absence owing to ill-health, and this office was not empowered to settle the question of the claim, which Mr. Woods had made from the first, that the department was not entitled to the 25 per cent discount on vouchers 22796 and 22798 after payment had been delayed for eight months.

I am, sir, your obedient servant,

The Auditor General.

A. G. KINGSTON, Accountant.

OTTAWA, Dec. 27, 1902.

DEAR SIR,—Inclosed please find my cheque for the sum of \$1,151.10, which covers your account as per inclosed statement to date, and which we trust you will find in order.

Items in Sept., 1901, you will find in two cases entered at the original price, and which was to carry a special discount for spot cash of 25 per cent, this, you know, was not availed of by your department as this portion was not paid for for nine months after, and as you need not be informed, a purchaser cannot get the time on a bill and discount for cash as well; on some of the invoices we deducted the cash discount off the price as in the item \$4,958.95, \$290.75, this, of course, will have to pass as it has gone through your books, but will reduce the discount on the whole to about 17 per cent. I might say in case the discount for cash appears great, that it is not as compared to ordinary goods bought at 1 per cent off 10 days or 30 days net, this is 3 per cent per month, or 36 per cent per annum to the cash buyer. We gave you very close figures with the understanding that it would be a cash transaction, and it is not our fault that you did not live up to the contract which we would have preferred at the time.

Thanking you for past favours, and soliciting a continuance, I am

Yours faithfully,

The Accountant, Public Works Dept.

JAMES W. WOODS.

AUDIT OFFICE, OTTAWA, Jan. 31, 1903.

SIR,—Some time ago I asked you to cause any correspondence between this office and your department, which was of such a nature as to be supposed to concern mainly the Accountant's Branch, and which I found had been to some extent going on between the Accountant and this office, to in the future, pass between you and me. You acquiesced in my wish, and told me that that would be done.

I now bring the matter up again, because of a letter which I have just received from Mr. Kingston with reference to the Woods duplicate payment. You are, I pre-

SESSIONAL PAPER No. 1

sume, aware of the contents of the letter, or, if not, you can easily ascertain them. With reference to this matter will you be good enough to furnish me with the correspondence which took place between the date on which it was known in the department that the duplicate payment had been made and the 27th December, when Mr. Woods made the partial refund? Will you also give distinct instructions that the general change in the correspondence above referred to take place at once?

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Feb. 9, 1903.

SIR,—I have made the necessary arrangements with the Accountant of this department concerning the correspondence that requires to be had between your office and this department, and in future whatever communications are required will be sent either by the Secretary or by myself. This does not, of course, refer to the petty correspondence having reference to transfers, or trivial explanations of accounts. In such cases I dare say that verbal explanations by the Accountant, or other memoranda from him, will be accepted and acted upon. In matters of some importance, however, the course indicated by you will be followed.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.P.W.

AUDIT OFFICE, OTTAWA, Feb. 10, 1903.

SIR,—With further reference to correspondence regarding the \$5,000 over-payment to Mr. J. W. Woods, I have been expecting the report from your Accountant on his Branch, and a statement of your intended action to remove weaknesses. Will you cause a list to be made of those in the Branch who have not passed the qualifying or promotion examinations?

I am also anxiously waiting for an explanation through the correspondence between Mr. Woods and your department between May, when the error was known to your department and to Mr. Woods, and December, when the partial repayment was made. I have not yet been furnished with a copy of that correspondence. I cannot think of any ground for permitting the over-payment to have remained in Mr. Woods' hands after it was known to the Accountant that it had been made. It would be satisfactory to learn that the minister had been made aware at once of the over-payment, if, on account of your absence, as explained by Mr. Kingston in his letter, you could not be informed of the circumstance.

I do not see why Mr. Woods should have been permitted to have decided how it suited him to alter the terms on which purchases had been made by the government through the Public Works Department, so as to close the over-payment to him.

Until something more is known about the matter in this office, or until there is reserved for the government from Mr. Woods the difference between the over-payment and the amount refunded on account of it, be good enough not to make further payments to Mr. Woods. I desire to see more light on this subject, so that I may be in a position to renew your Departmental Credit when the one now in force becomes exhausted.

You remember that the Charleson account is in an unsatisfactory condition.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Feb. 10, 1903.

SIR,—I have been holding for some days a letter which I had written to you, in reply to yours of the 29th January, hoping that I would be able to have a final conversation with the Accountant prior to sending it.

Mr. Kingston has been kept away from the office by the severe illness of one of his children, and is himself kept at home on account of the bad state of his health.

However, upon receipt of your letter of to-day's date, I have decided to send you my reply which, probably, is not as full as it could have been made were the Accountant here.

As regards the Woods' account, as I have no personal knowledge of the matter, I cannot without the presence of the Accountant, give you the information you are pressing for, but I will take advantage of the first day he returns to the office to obtain from him, and send you, the information applied for.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, *D.M.P.W.*

DEPT. OF PUBLIC WORKS, OTTAWA, Feb. 9, 1903.

SIR,—I have brought to the attention of the Accountant of this department your letter of January 29, having reference to instances of duplicate payments in the department, which you appear to attribute solely to the officers of the Accountant's Branch.

I have talked the matter over with that officer, and, while he is prepared to acknowledge that some of those duplicate payments are attributable to his branch alone, he can only accept two instances for which he will have to bear, with his officers, the full responsibility.

Those two are the case of Mr. J. W. Woods, and that of another payment to Mr. F. Devarennès.

The Accountant calls my attention to the fact that the officers, who are in a better condition to see whether an account sent through their hands, is or is not overlapping another already made, are those who have the immediate supervision of the work, namely, the resident engineers or the resident architects, who, through their foremen who are on the spot and receiving the goods for which payment is called, can readily and immediately detect any charge which may be a duplicate of one already made.

When accounts are certified, first, by the foreman in charge, second, by the resident officer, and third, by the officer at headquarters at Ottawa, they come to the Accountant with a more than sufficient guarantee that all that was required to ensure the correctness of the account has been done by the parties more in a position than himself, or his clerks, to judge of the accuracy of the voucher.

Of course, the Accountant subjects the voucher to a further examination, but with the mass of payments which are regularly made, it follows that there is quite a moral reliance upon the work which is already done. As a matter of fact, it has occurred several times, where the examination of an account and the similarity of the charges, has raised in the mind of the Accountant a doubt as to the possibility of a duplicate payment, information proved that such was not the case, but the time spent in procuring the information has caused much delay in the making of the payments.

I give this explanation as I share the view of the Accountant, that the fault of which you complain in your letter is not to be borne by him altogether, and I will be sorry to see a painstaking and laborious officer bear the full responsibility of mistakes not wholly attributable to him.

I believe, therefore, that your letter addressed to me should perhaps have called my attention to a defect in the department generally instead of singling out the Accountant for blame.

Your letter, however, has led me to look into the possible cause of such duplicate payments, and I have found one to which, I think, was due the Woods and Devarennès over-payment, that is the practice of payments made on account pending the receipt of properly certified vouchers.

I have given instructions that no such payment on account shall in future be allowed, and that none be made except upon regularly certified vouchers, which, when

SESSIONAL PAPER No. 1

filed and entered in the books of the department, will immediately be under the officers' eyes, and will prevent any chance of over-payments in such cases.

I have also asked the Chief Engineer, the Chief Architect, and the Superintendent of Telegraphs to issue a circular to their certifying officers, asking them to exercise additional prudence and care in checking over of accounts, and to be sure, when they send a certified voucher, that they are not certifying anything to which they may have attached a previous certificate.

I propose also to introduce in the Accountant's office an additional system of receipt of accounts and checking of outgoing cheques which, I believe, will remove all possibility of any duplicate payments being made.

Would you also allow me to remark that it is easier for an auditor, who has under his supervision vouchers, in favour of one or more men, for the full period of one year, well tabulated and arranged as to dates, to detect any possible error, than it is in an accountant's office, such as ours, where work is rushed to the utmost capacity of the officers; where the volume of the work is enormous and where pressure is brought to bear for immediate payments which, as I have stated above, renders reliance upon previous certificates a necessary part of the final examination of the accounts.

Believe me, sir, yours very truly,

The Auditor General.

A. GOBEIL, D.M.P.W.

AUDIT OFFICE, OTTAWA, Feb. 14, 1903.

SIR,—I beg to acknowledge the receipt of your letter of the 10th instant.

Mr. Woods has called and tells me that he has handed you a cheque for the amount which it appeared to me he should at once repay. You have no doubt had the cheque deposited to the credit of the Receiver General. Mr. Woods argues that his mode of calculation is correct. I shall at all events be glad to discuss the matter with Mr. Woods and yourself as soon as Mr. Kingston is well enough to return.

When Mr. Kingston returns will you cause the preparation of the information which I requested? That will not interfere with the other steps which, as you explain, it would be advisable to take. While we are at it we may as well get the accounts of your department under as thorough control as possible. It will cause comfort to you, me, and to all others concerned.

Have you yet had the refund of the F. Devarennnes over-payment? (See pages V—184 and 374).

I have heard nothing from you in connection with the J. B. Charleson apparent over-payment.

We have now about seen the accounts of your department through the press, and I should be glad to be in a position to state that all refunds have been made.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept.

J. L. McDUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Feb. 14, 1903.

SIR,—I hasten to inform you that I have to-day received from Mr. J. W. Woods, of Ottawa, a cheque for the sum of \$2,059.56, being the balance of the sum of \$5,000 for which a statement was sent to you last week by the Accountant.

Mr. Woods desires it to be understood, however, that the placing of such cheque in our hands does not mean the abandonment of the position which he has taken, viz.: that a purchaser cannot expect from a dealer both time and discount, and that one only is granted when it is the desire of the purchaser to avail himself of it, and it is always at the exclusion of the other.

I do not make this remark for the purpose of entering into a discussion of the matter now, nor even of expressing an opinion on said matter, but simply to convey to you the remarks made to me by Mr. Woods, when he handed me the cheque in question.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.P.W.

SESSIONAL PAPER No. 1

Re Telegraph Revenue: Yukon Lines.

AUDIT OFFICE, OTTAWA, Feb. 14, 1902.

SIR,—I have not yet been informed of any settlement with Superintendent Crean, who is still in Ottawa, in connection with the revenue of the Bennett-Dawson Telegraph Line.

There is still unaccounted for \$1,343.81 of the revenue accrued previous to June 30 last.

The monthly statements for August are the latest that have reached this office. The deposits for that month have been made, but an account for messages run by Mr. Fuller for \$27.52 is yet outstanding.

The deposits that have since come to account, and which are therefore applicable to revenue accrued subsequent to August, amount to \$9,928.06.

The revenue for September, October, November and December, 1900, amounted to \$28,428.53. Assuming that the revenue for the same months in 1901 was approximately the same, adding the balance of \$1,343.81 from 1900-1, and deducting the receipts to hand \$9,928.06, there remains \$19,844.28 still to come to account.

I do not want to prejudge anything in connection with this matter, but it appears that the bulk of this sum ought to be explained without any delay.

I am, sir, your obedient servant,

The Hon. Minister of Public Works.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, April 5, 1902.

SIR,—I have received from the Accountant of your department a statement of the Telegraph Revenue of the Bennett-Dawson and other lines to December 31, 1901.

The balance accrued to that date, and not yet brought to account, is \$2,338.79, principally made up of amounts due by Canadian Pacific Railway Telegraph Co. for interchange business at Ashcroft for November and December. What is the reason of the great delay in obtaining these amounts?

In acquittance of the revenue accrued to December 31, credit is taken for the following deposits:—

At Dawson—January 4.. .. .	\$3,998 59
January 27.. .. .	2,704 00
January 27.. .. .	162 97
At White Horse—January 10.. .. .	1,474 47
February 19.. .. .	1,600 00
March 18.. .. .	106 37

In my letter of December 17 last, I called attention to the delay in depositing the receipts. The statement now furnished does not indicate any improvement. The only deposits that have reached this office in acquittance of the revenue accrued since December 31, are two made in Dawson on February 20, amounting to \$2,495.12.

Now that the revenue is not used to pay maintenance accounts there can be no reason why the Treasury Regulations should not be observed at Dawson and White Horse. If this were done a large part of the receipts would be deposited from day to day, and the balance shortly after the close of the month. As long as the present practice continues it cannot be considered that this revenue is satisfactorily accounted for.

I may add that the returns of accrued revenue for January have not yet been received, and only \$2,495.12, as before stated, has been deposited.

I am writing a separate letter regarding maintenance.

I am, sir, your obedient servant,

The Hon. Minister of Public Works.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, May 20, 1902.

SIR,—You are reported as having stated in the House on the 12th instant, that the Telegraph Revenue from the Yukon lines for the month of April amounted to \$11,500.

I have several times written you in reference to the delay in bringing the revenue of this line to account.

No statements of the revenue accrued since December last have yet been received in this office.

On April 5 I wrote you in reference to a statement of the revenue to December 31 last, about that time furnished by the Accountant of your department. This statement showed a balance not then brought to account of \$2,338.79.

The deposits that have since come to account are as follows:—

Deposit at Dawson—February 20.....	\$ 235 82
February 20.....	2,259 30
March 19.....	1,335 87
Deposit at White Horse—March 26.....	2,129 26
April 8.....	1,768 37
Deposit at Ottawa—April 16.....	2,433 06
April 23.....	346 29
April 21.....	2,153 99
April 25.....	145 50

The total amount of these deposits is \$12,807.46, from which if you deduct the balance of revenue to December unaccounted for, a balance of \$10,468.67 is left on account of the revenue accrued since January 1 last. Not having the statements I am unable to compare these deposits with the revenue accrued. It is evident, however, that there is unnecessary delay in depositing the receipts. I have previously claimed that a considerable portion of the revenue at Dawson and White Horse should be deposited, in accordance with the Treasury Regulations, from day to day as collected. So far as the deposits received indicate, this regulation is not being observed, and no explanation is furnished why it is not.

I am, sir, your obedient servant,

The Hon. Minister of Public Works.

J. L. McDougall, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, May 23, 1902.

DEAR SIR,—The minister directs me to reply to your letter of the 20th, concerning the telegraph revenue from the Yukon lines. I may say that for the past few days I have conferred with the Accountant, the Superintendent of the Lines, Mr. Crean, and the General Superintendent, Mr. Keely, with a view to avoid the delays of which you complain. In the first place let me state that the returns for the months of January and February have been in the department for some little time, but could not be adjusted on account of the absence of Mr. Keely on cable repair work.

They will be sent to you almost immediately.

As regards the future returns, allowing 10 days after the beginning of each month for the collection of the traffic returns, 10 more days for their examination by the local superintendent and their transmission to Ottawa, and about the same time for their examination here and despatch to you, the returns should be in your hands no later than the beginning of the second month following that for which the collections will be reported, that is to say, you should get in the first week of July the returns of the collections for May, and in August those for June, and so on. This arrangement will be good for the summer season, as communications in the Yukon are easy, but during the winter months the delay will be increased to between 15 days and three weeks, and sometimes one month, depending largely on the weather and the facility of communication.

SESSIONAL PAPER No. 1

As regards the collections themselves their deposit will be made daily at the principal points where there is a bank, if the bank authorities will agree to that course, and it has further been arranged that in future no one connected with the Yukon service will be allowed to use for maintenance expenses any of the funds received as revenue from its operation.

The instructions issued by the Accountant to Mr. Crean are very clear and very explicit, and I believe that for the next fiscal year and afterwards there will be no ground for complaint.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, *D.M.*

AUDIT OFFICE, OTTAWA, Nov. 5, 1902.

SIR,—The last return of Telegraph Revenue accrued in the Yukon Territory that has reached this office, is that for the month of April last.

Including the balance of the revenue of 1900-1 not accounted for, the revenue accrued in the ten months, July-April, was \$81,385.07.

The total deposits that have come to account for 1901-2 were \$87,552.03, to which is to be added a transfer from maintenance of \$7,570.11, making a total of \$95,122.14.

This would leave \$13,737.07 to meet the revenue of May and June. The revenue of March was \$9,010.11, and of April was \$11,564.32. If the revenue of May and June was as large as the two previous months, there is a considerable balance that has not been accounted for.

The deposits that have come to account to date on the revenue of 1902-3 amount to \$18,244.24. Possibly some of this amount may be for revenue of October. Even assuming that it all applies to previous three months, it is an average of only slightly over \$6,000 per month.

You will perceive the very unsatisfactory condition of this revenue account. There has been great and seemingly unnecessary delay in forwarding the returns; and judging by the revenue of the months preceding, the revenue accrued has not all been deposited.

I have to ask for a reply at your earliest convenience, so that any explanations you may be able to give may be published in the Audit Report now being prepared.

I am, sir, your obedient servant,

The Deputy Minister of Public Works.

J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, Nov. 7, 1902.

DEAR SIR,—I have the honour to acknowledge the receipt of your letter of the 5th instant, in reference to the returns of telegraph revenue for the Yukon Territory.

I have laid that letter in the hands of the Accountant in order to be informed as regards the pure financial aspect of the case, namely, the discrepancy reported by you between the amount actually deposited, and that which, you assume, as not having yet been accounted for.

The Accountant explains that in the spring of the present year, the appropriation granted by Parliament for maintenance ran short before any further funds could be obtained, and that a portion of the revenue was utilized by the superintendents to pay salaries, without which payments the operating staff could not possibly have been maintained to an efficient degree.

The additional vote granted in the supplementary estimates for maintenance was not obtained in time to immediately remedy that state of things, and Mr. Kingston says that with the expectation of all traffic returns being in very shortly, a transfer can be made to readjust the accounts and cause the discrepancy, pointed out by you, to disappear entirely.

With reference to the traffic returns themselves, I may explain that, as you probably are aware, some trouble occurred on the line owing to an attempted reduction of salaries whereby a certain number of the employees thought it better to leave our service.

At Dawson, specially, the situation became so difficult that Superintendent Clegg had to act personally as operator until such time as the matter could be cleared and further assistance obtained. The business at Dawson is at times very heavy and usually requires the services of two operators from early in the morning till very late at night. With a loyalty that cannot be too much praised, Superintendent Clegg stood manfully by the service of the department and did the operators' work without complaint and without any delay occurring in the despatching of business. This, however, prevented for some time any clerical work being done by him, and consequently a proportion of the returns had to be laid aside on account of the absolute impossibility of getting them out. Now that the trouble has been adjusted, however, the returns are prepared and will be in shortly. As a matter of fact, I am informed by a telegraphic message of the 6th instant, that the revenue returns for the southern division, for August and September, were mailed on the 6th instant, while those for June and July were mailed on the 5th. Those for the northern division, for May and June, will be mailed to-day. In a week, therefore, the department will be in possession of all the traffic returns with deposit receipts to the end of June for the northern division, from Dawson to Telegraph Creek, while, by the same date, we will have the returns, to the beginning of October, for the southern division from Telegraph Creek to Quesnelle.

This information will, no doubt, be as satisfactory to you as it is to the department, and we trust that, henceforth, the returns will come in with the regularity which the department has a right to expect, under the specific instructions given by the Accountant to the Superintendent.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEL, D.M.

AUDIT OFFICE, OTTAWA, Dec. 31, 1902.

SIR,—The Superintendent of Telegraph Lines has not yet furnished the closing statements of the Telegraph Revenue for the year ended June 30 last.

The statement of Telegraph Revenue in the Yukon that will be published in the next Audit Report will show a balance of \$13,862.53 unaccounted for, of the revenue accrued to June 30 last, made up as follows:—

Balance from 1900-1.....	\$ 1,558 52
Revenue accrued—	
Bennett-Dawson Lines, 12 mos. to June 30, 1902....	88,258 54
Ashcroft-Telegraph Creek, 8 mos. to June 30, 1902....	17,329 15
	\$107,146 21
Revenue brought to account.....	93,283 68
	\$ 13,862 53

The July return amounts to \$12,030.24, and the August return to \$12,633.95. These are the last received. Adding the amount of these to the balance from 1901-2 gives a total of \$38,526.72. The total receipts to hand, including those received to-day, amount to \$46,585.43. Consequently to meet the revenue accrued since September 1, there is only \$8,058.71 available. Seemingly the amount unaccounted for is on the increase.

It is desirable that an explanation should be given of the cause of the delay in depositing revenue, and the steps taken in reference thereto.

I have repeatedly called the attention of your department to the delay in accounting for this revenue.

I am, sir, your obedient servant,

The Deputy Minister of Public Works.

J. L. McDOUGALL, A.G.

SESSIONAL PAPER No. 1

Re Telegraph Revenue: Cariboo-Lillooet Line.

AUDIT OFFICE, OTTAWA, Jan. 2, 1903.

SIR,—On his statement for January last the Superintendent of Telegraph Lines included returns from Cariboo-Lillooet lines for the six months from May to October, 1901. Those were the first returns from this line, and none have since been received. The amount of the revenue accrued during the six months was \$1,352.65, and of that \$3,875.22 has come to account, leaving a balance unaccounted for of \$477.43.

Please explain why no returns or deposits have been received from this line later than those for October, 1901.

I am, sir, your obedient servant,

The Deputy Minister of Public Works.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Jan. 5, 1903.

DEAR SIR,—In reply to your letter of the 2nd instant, in reference to the Cariboo-Lillooet line, I beg to inform you that the reason why no deposits have been received from that line since the end of 1901, is that it has been incorporated into the general Yukon system just as soon as the latter was completed in that year.

When the Lillooet line was first constructed, it was, as soon as built, transferred—as all the other lines in British Columbia—to the management of the Canadian Pacific telegraphs, but some time in 1901, it having been decided by the department to resume the management of those lines, their expenditure and revenue were treated directly by the department, and returns of the same made to you.

As I have stated above, since the incorporation of that line in the Yukon system, no separate returns have been made.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.

Re Telegraph Revenue.

AUDIT OFFICE, OTTAWA, March 11, 1902.

SIR,—I have lately received from the Superintendent of the Telegraph Service a statement of the Telegraph Revenue returns for December last.

This statement shows that returns have reached the department, mainly for the months of July, August and September, 1901, amounting to \$3,562.45, for which no deposits have come to account.

I understand that this revenue was used by the operators to meet maintenance accounts, and the Accountant of your department is unable to reimburse the Revenue as the Vote for maintenance is exhausted.

The practice of using the revenue for expenditure is directly contrary to the statute, and was tolerated in connection with this Telegraph Revenue only on account of the isolated position of many of the offices and the difficulty of communication. But it was allowed to continue contingent on the existence of an appropriation out of which the revenue could be restored.

The over-expenditure of any Vote is contrary to statute and must be reported to Parliament. But as in the present case the money has been spent, it should be charged to the proper account, and the Revenue made good whether the Vote is over-expended or not. It will then be for the department to explain why a sufficient Vote was not obtained.

Is it not possible to get returns more promptly from most of these offices? It is now the month of March, and from several offices the return for September, from others that for October, is the last to hand. From Anticosti the last is for July. Your early attention is requested.

I am, sir, your obedient servant,

The Deputy Minister of Public Works.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, June 20, 1902.

SIR.—I have just received Revenue Statement No. 21 from your department, with the following Deposit Receipts, all dated June 18, 1902, on account of Telegraph Revenue:

No. 577, for \$991.49—	
Bay of Fundy, July, 1901, to January, 1902.....	\$ 518 33
Cheticamp, July-August, 1901.....	335 52
Meat Cove, August, 1901.....	6 10
Gaspé, October, 1901, to January, 1902.....	5 74
North Shore, E.B., June, 1901.....	62 05
North Shore, W.B., December, 1901.....	25 29
Grosse Isle Quarantine, June, 1901.....	38 46
	<hr/>
	\$ 991 49
No. 578, for \$526.94—	
North Shore, E.B., 1901.....	526 94
No. 579, for \$1,895.42—	
Anticosti, January-December, 1901.....	1,895 42
No. 580, for \$527.16—	
Cheticamp, December, 1901, to February, 1902.....	312 88
Meat Cove, February, 1902.....	3 67
Escuminac, May, 1901, to October, 1901.....	93 69
North Shore, W.B., July-August, 1901.....	116 92
	<hr/>
	\$ 527 16
No. 581, for \$545.31—	
North Shore, W.B., May-December, 1901.....	254 99
Magdalen Islands, September-December, 1901.....	290 32
	<hr/>
	\$ 545 31

I have to call your attention to the delay in bringing this revenue to account. There may be some reason why the returns from the Magdalen Islands and Anticosti are delayed during the winter months. But it seems to call for comment why the revenue from Anticosti, between January-December, 1901, is only now being deposited. For those places on the mainland there should not be any difficulty in getting the revenue to account within a month, or at the most two, after it has been collected.

Your attention is requested.

I am, sir, your obedient servant,

The Hon. Minister of Public Works.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, July 2, 1902.

SIR.—In reply to your letter of the 20th ultimo, acknowledging the receipt of our Statement No. 21, together with certain Deposit Receipts on account of Telegraph Revenue, and calling our attention to the delay in bringing this revenue to account, I have the honour to inform you that our Accountant, to whom the matter was referred, reports as follows:—'Many of these accounts have been in this office for some months, but owing to exhaustion of the appropriation it was impossible to transfer the money to credit of Revenue until the close of the session of Parliament. It was done as promptly as possible after that date.'

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

SESSIONAL PAPER No. 1

Re Telegraph Revenue: Meat Cove Line.

AUDIT OFFICE, OTTAWA, Jan. 3, 1903.

SIR,—The revenue of Meat Cove line for 9 months ended March 31, 1901, was \$524.87. There does not seem to have been any revenue during April, May and June. The revenue for 12 months ended June 30, 1902, was only \$114.76.

How is the large reduction accounted for?

I am, sir, your obedient servant,

The Deputy Minister of Public Works.

J. L. McDOUGALL, A.G.

Rent of Building at Halifax.

DEPT. OF PUBLIC WORKS, OTTAWA, Jan. 25, 1902.

SIR,—I have the honour to forward to you, herein inclosed, copy of a letter from our Mr. Resident Engineer Dodwell, containing the informations asked for by you on the 21st ultimo, *re* proceeds of the rent of a building at Halifax, on a site purchased for a new public building.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

HALIFAX, N.S., Jan. 18, 1902.

SIR,—In reply to your letter No. 235864 of December 31, 1901, I beg to say that I applied to Mr. Mellish, of Ross, Mellish & Mathers, who transacted the business in connection with the purchase of the property, for the necessary information. He states that the purchase money was paid and formal transfer of the property made on June 4, 1901. The tenants at that time signed an agreement to vacate the premises at a week's notice. The cash, \$446.53, remitted by Mr. Davidson represented, as far as he knew, the rents due the government from the time of transfer or possibly from April 26 to September 3, 1900; also that so far as he is aware no arrangements were made for the collection of subsequent rent.

Regarding the item of insurance, the building was insured, at the time of the transfer, and the policy had 6 months longer to run.

The policy was not transferred to the Crown, Mr. Corbett verbally agreeing in the event of fire to hand over the insurance.

The following is a list of the tenants at the time of the transfer and the dates, as near as could be ascertained, of their vacating the premises:—

E. J. Quirk, vacated about March 18, 1901.

E. Wright, vacated about March 18, 1901.

A. B. Crosby & Co., vacated about April 15, 1901.

James Duggan & Sons, vacated about June 1, 1901.

W. B. Arthur & Co., vacated about September 25, 1901.

Howard Bligh, Shipping Master, port of Halifax, September 25, 1901.

Yours obediently,

The Chief Architect, Ottawa.

C. E. W. DODWELL, *Resident Engineer*.

AUDIT OFFICE, OTTAWA, June 2, 1902.

SIR,—I wrote you December 21, 1901, in reference to the rent of a building at Halifax.

On January 25, 1902, you forwarded a copy of a letter from the Resident Engineer, which stated that the amount remitted (\$446.53) covered the rents from April 26 to

September 3, 1900, less disbursements; but no statement was given showing the names of the tenants and the amount paid by each. I would like to have that information. He also gave a memo. showing when the tenants vacated the property, which was as follows:—

E. J. Quirk, vacated about March 18, 1901.

E. Wright, vacated about March 18, 1901.

A. B. Crosby & Co., vacated about April 15, 1901.

James Duggan & Sons, vacated about June 1, 1901.

W. B. Arthur & Co., vacated about September 25, 1901.

Howard Bligh, vacated about September 25, 1901.

I have to inquire if the rent from September 3, 1900, to the date of the vacancies of the property, has been collected?

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, June 5, 1902.

SIR,—In reply to your letter of the 2nd instant, calling attention to that of December 21 last, in reference to the rent of a building at Halifax, on a site purchased for a new public building, I have the honour to inform you that copy of a letter from our Mr. Resident Engineer Dodwell, containing the information asked for, was sent to you on January 25 last.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

AUDIT OFFICE, OTTAWA, June 9, 1902.

SIR,—You state in your letter of the 5th instant, that you forwarded on January 25 last, a copy of a letter from Mr. Resident Engineer Dodwell, containing the information asked for in my letter of December 21, 1901.

If you refer to my letter of the 2nd instant, you will find that I acknowledge the receipt of your letter of January 25, inclosing a copy of the resident engineer's letter, but it did not give all the information asked for in my letter of December 21, 1901.

What still seems necessary is a statement showing the names of the tenants and the amount paid by each; and an answer to my inquiry, if the rent from September 3, 1900, to the date of the vacancies of the property, has been collected.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, Jan. 9, 1903.

SIR.—I have not received any reply to my letter of June 9 last, in reference to the lessees of the Public Works Building at Halifax.

If a satisfactory answer were received immediately it would not be necessary to publish the correspondence.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

SESSIONAL PAPER No. 1

DEPT. OF PUBLIC WORKS, OTTAWA, Jan. 16, 1903.

SIR,—I beg to acknowledge the receipt of your letter of the 9th instant, calling attention to previous correspondence respecting rents of Halifax building. I had already written to our resident engineer and Messrs. Ross, Mellish & Matheson, of Halifax, who negotiated the purchase of the building, and will communicate with you as soon as I hear from them. I am writing them again to-day urging reply.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

Re Slide and Boom Dues.

AUDIT OFFICE, OTTAWA, August 29, 1902.

SIR,—In the return of Slide and Boom Dues from Newcastle district for the month of March last, there is entered the dues accrued against Mossom Boyd Co. during the seasons of 1896, 1898, 1899, 1900 and 1901. Why are there no charges for 1897?

The amount of the tolls for the first four years was \$897.60, and from that you have deducted \$485.87, amount written off by order of the Hon. the Minister of Public Works.

The practice heretofore followed in reference to indebtedness due the government has been that no amount is written off without parliamentary authority.

I will be glad to be informed of the circumstances in connection with this case that led the Hon. Minister to remit nearly 50 per cent of the amount due.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, Sept. 8, 1902.

SIR,—Referring to your letter of the 29th ultimo, in regard to the Slide and Boom Dues accrued against Messrs. Mossom Boyd & Co., in the Newcastle district, I beg to inclose herewith a copy of a report, prepared by our Collector of Revenue, containing the information you desire.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, *Secretary*.

REPORT.

‘There were no charges against Mossom Boyd & Co., for 1897, because all their logs of that year were stuck.

‘The deduction of \$485.87 was written off because from June 15, 1898, to August 28, 1899, the slide at Fenelon Falls was broken and unserviceable, and the logs of Mossom Boyd & Co. passed over the falls and part through the locks during that period—hence we had no right to make any charge. The account was made on the report of the logs made in the bush without knowing that they passed as above stated till the Department of Justice threatening proceedings to collect when inquiry from the Slide Master confirmed their claim that they should not be charged for these years.’

E. T. SMITH, *Collector*
